Richard (HB 98) **Act No. 248**

Provides relative to local government pursuant to HCR No. 218 of the 2009 R.S., which authorizes and requests the La. State Law Institute to conduct a thorough study of Title 33 (Municipalities and Parishes) and to recommend a revised codification thereof, as follows:

I. Repeals certain provisions of the Constitution Ancillaries that are no longer effective, as follows: *(Note: The Constitution Ancillaries are provisions of the 1921 constitution made statutory by the 1974 constitution that have neither been incorporated into the Louisiana Revised Statutes nor repealed by the legislature. The 1974 constitution (Art. VI, §43 and Art. XIV, §§16, 19, and 32) provides that these provisions are subject to change by the legislature).*

Prior law (1921 Const. Art. VI, §29, made statutory by 1974 Const. Art. XIV, §19) provided relative to the Greater Baton Rouge Port Commission, including but not limited to provisions relative to membership, compensation of commission members, terms of office, and powers. Existing law (R.S. 34:1221-1226) includes these provisions with some substantive differences, which are later legislative expressions. Differences include change in commission membership, authority for per diem instead of service without compensation, service at the governor's pleasure instead of service for four-year terms, increased bond limit, and authority to levy ad valorem tax without voter approval rather than prohibition on ad valorem tax. New law repeals 1921 Const. Art. VI, §29 but does not affect R.S. 34:1221-1226.

Prior law (1921 Const. Art. XIV, §24, made statutory by 1974 Const. Art. XIV, §16(A)) provided relative to bond issues for public improvements in New Orleans, including 1924, 1928, and 1936 borrowings which authority is no longer needed. The provisions are superseded by specific authority of the Board of Liquidation and the city of New Orleans to issue bonds. New law repeals 1921 Const. Art. XIV, §24.

Prior law (1921 Const. Art. XIV, §§24.2-24.9 and 24.11, made statutory by 1974 Const. Art. XIV, §16(A)) provided relative to New Orleans sewerage, water, and drainage bonds, including but not limited to provisions for election, funds for payment, tax, tax exemptions, interest, sale, and use of proceeds. Also provided that provisions were self operative. The provisions are superseded by specific authority of the New Orleans Sewerage and Water Board and the Board of Liquidation, City Debt, to issue bonds as well as by provisions for issuance of revenue bonds, by provisions for bonds secured by ad valorem taxes for drainage, and by general authority to incur debt and provisions for form and manner of sale. New law repeals 1921 Const. Art. XIV, §§24.2-24.9 and 24.11.

Prior law (1921 Const. Art. XIV, §§24.12-24.22, made statutory by 1974 Const. Art. XIV, §16(A)) provided relative to a 1930 New Orleans bond issue, including but not limited to provisions relative to authorization, purposes, debt limit, funds pledged for payment, tax, tax exemptions, interest, sale, and emergency borrowing. Also provided that provisions were self operative. These provisions have been superseded by specific authority to issue bonds and for city to incur indebtedness. New law repeals 1921 Const. Art. XIV, §§24.12- 24.22.

Prior law (1921 Const. Art. XIV, §24.23, made statutory by 1974 Const. Art. XIV, §16(A)) provided relative to certain street, water, and sewer improvements for New Orleans and for assessments and liens relative thereto. The provisions have been superseded by later authority to issue debt. New law repeals 1921 Const. Art. XIV, §24.23.

Prior law (1921 Const. Art. XIV, §31.7, made statutory by 1974 Const. Art. XIV, §16(A)), which was added as an amendment to the 1921 constitution in 1964, provided relative to authority for the city of New Orleans to provide a vehicular and/or pedestrian crossing over or under the Inner-Harbor Navigation Canal and to acquire property for the project. Further provided for the Orleans Levee District, the commissioners of the Port of New Orleans, and the state through the Dept. of Transportation and Development to provide funds for the project. Authorized the city to issue bonds for the project. The provisions are no longer needed. The project has been built and authority therefor is no longer necessary. Authority for contracts relating to this project is covered by other law (R.S. 34:41 et seq.) In addition, the city of New Orleans has other authority to issue general obligation bonds. New law repeals 1921 Const. Art. XIV, §31.7.

Prior law (1921 Const. Art. XVI, §6, made statutory by 1974 Const. Art. XIV, §§16(A) and 32) provided relative to property used or destroyed for levee or levee drainage purposes and compensation therefor. Provided that compensation paid could not exceed the assessed value of the preceding year. Further authorized ad valorem taxation for such purposes under certain circumstances and specified that it did not prevent the appropriation of property before payment. Also included provisions relative to restoration of streets/ highways taken for levee purposes in a municipality with a population of 100,000 or more. Existing constitution (1974 Const. Art. XIV, §32) provides that the compensation for property so used or destroyed shall be paid as provided in 1921 Const. Art. XVI, §6 until the legislature enacts a law to effectuate 1974 Const. Art. VI, §42. The legislature has done this; R.S. 38:301(C)(1)(a) by Acts 1985, No. 785 provides, relative to appropriation for levee purposes, for payment at fair market value to the full extent of the loss. (The legislature has also provided for compensation when property is expropriated for levee purposes. R.S. 38:387 provides for compensation to the full extent of the loss). Other provisions are superseded or replaced by 1974 constitutional provisions (1974 Const. Art. VI, §42) or other law. New law repeals 1921 Const. Art. XVI, §6.

II. Repeals provisions for the commission form of parish government as follows:

Existing constitution and existing law provide for the forms of parish government. Present constitution (Const. Art. VI, §§ 4-5) recognizes home rule charters existing or adopted when the constitution was adopted, authorizes a local governmental subdivision (parish or municipality) to adopt a home rule charter to provide for its form of government, and also authorizes two or more local governmental subdivisions within the same parish to adopt a single home rule charter. Existing law, relative to the form of government of parishes, provides for the police jury form of parish government and prior law provided for the commission form of parish government.

Prior law (R.S. 33:1271-1285), relative to the commission form of parish government, authorized parishes to adopt the commission form of government subject to procedures for petition of 15% of the parish electors and adoption by the parish voters of a proposition providing for the commission. Provided for election of three commissioners; a commissioner of public affairs, a commissioner of finance, and a commissioner of public improvements. Provided that the police jury would be superseded by the board of commissioners if the commission form were adopted by the parish. Provided for term of office, powers and duties, meetings, and compensation of the commissioners. Provided relative to employees of the board of commissioners, for financial statements and reports, and for revision of budget and appropriations. Also provided relative to ordinances and procedures therefor, including initiative and referendum. Provided procedures, including petition and election, for a parish that had operated for more than six years under the commission form of government to resume its original form of government.

New law repeals prior law that provided for the commission form of parish government.

III. Directs the La. State Law Institute to redesignate certain statutes as follows:

New law directs the La. State Law Institute to redesignate specified statutes (relative to judicial branch functions) from Title 33 to Title 13 of the Louisiana Revised Statutes of 1950. Also directs the La. State Law Institute to redesignate specified statutes (relative to local sales taxes) from Title 33 to Chapter 2 - D, The Uniform Sales Tax Code, of Subtitle II of Title 47 of the Louisiana Revised Statutes of 1950. Directs the La. State Law Institute to make technical changes in citations and statutory forms as necessary to reflect such redesignations. Provides that such a redesignation shall not affect the validity of the statute, that references to a statute as redesignated shall be valid, and that redesignation of a statute shall not invalidate a reference to the former citation of the redesignated statute. Authorizes the La. State Law Institute to designate new chapters, parts, and subparts of Title 13 and to designate new parts and subparts of Chapter 2 - D of Subtitle II of Title 47 of the Louisiana Revised Statutes of 1950 for the redesignated statutes. Requires that such redesignation be completed by Jan. 1, 2012.

Effective August 15, 2011.

(Repeals 1921 Const. Art. VI, §29 (made statutory by 1974 Const. Art. XIV, §19), 1921 Const. Art. XIV, §§24, 24.2-24.9, 24.11-24.23, and 31.7 (made statutory by 1974 Const. Art.

XIV, §16(A)), and 1921 Const. Art. XVI, §6 (made statutory by 1974 Const. Art. XIV, §§16(A) and 32) and R.S. 33:1271-1285)
