Danahay (HB 333) **Act No. 274**

Existing law provides that the maximum work hours required by persons employed or engaged full time by municipalities or municipal fire departments or by parish or parish fire departments or fire protection districts as operators of fire alarm systems in any one calendar week is 42 hours. New law provides that the maximum work hours required by persons employed or engaged full time by the Lake Charles Fire Dept. as operators of fire alarm systems in any 14-day work cycle is 84 hours.

Effective August 15, 2011.

(Amends R.S. 33:1994(B))
