EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

REVENUE EXPLANATION

Proposed constitutional amendment would result in a decrease in revenue for local government entities.

According to the Tax Commission, the majority of the artwork on consignment would primarily be located in the 1st and 2nd municipal districts of Orleans Parish. The Legislative Fiscal Office contacted the Assessors' offices of these two municipal districts and received the following information.

The assessor in the first municipal district of Orleans Parish has began the process of collecting property tax due from art on consignment; however, no revenue has been collected.

The assessor in the second municipal district of Orleans Parish reports collecting property tax due from art on consignment for five years. The tax is due by the owner of the art who has placed the piece on consignment. The tax is calculated by this district by applying a 60% depreciation rate to the art and applying the district's millage to 15% of the remaining value. The second municipal district includes both the New Orleans French Market and New Orleans French Quarter, both housing numerous art galleries handling consignment art. The assessors office was unable to quantify the amount collected from this type of property, but did indicate that the amount could fluctuate significantly from year to year.

With statewide application, it is possible that other jurisdictions around the state could lose revenue, to the extent this type of property is being assessed. The LA Tax Commission is not aware of this practice in other jurisdictions and any potential revenue loss is likely to be minimal.
