**TAX/TAXATION**

(Constitutional Amendment) Provides for exemption for food for home consumption, natural gas, electricity, and water from sales and use tax levied by the state or political subdivision whose boundaries are coterminous with the state.

The bill would constitutionally exempt food for home consumption, natural gas, electricity, and water from sales and use tax levied by the state or by a political subdivision whose boundaries are coterminous with those of the state.

The proposed constitutional amendment is to be submitted to the voters at the statewide election on November 7, 2000, and would become effective on January 1, 2001, but only if and when the proposed amendment of Article VII, Section 4(A) of the Louisiana Constitution which originated as House Bill No. 73 of the 2000 Regular Session is adopted at the statewide election to be held on November 7, 2000, and becomes effective.

**EXPENDITURE EXPLANATION:**

There is no anticipated direct effect on expenditures as a result of this measure.

**REVENUE EXPLANATION:**

The proposed legislation is estimated to result in a decrease in State General Fund revenue of approximately \$152.96 million and a decrease in Tourism Promotion District revenue of approximately \$1.55 million in FY 2001, based upon an effective date of January 1, 2001. The legislation would result in a decrease in State General Fund revenue of approximately \$308.97 million and a decrease in Tourism Promotion District revenue of approximately \$3.12 million in FY 2002, based upon a full year's exemption from sales and use tax on these purchases.

The estimate of suspension of exemptions is based on an econometric model of state sales tax collections. That model statistically adjusts for the shifts in the collections trend due to the expansion and contraction of the tax base resulting from the various suspensions of exemptions that have been enacted over time. As additional collections data has been added to this model, this estimate has remained relatively stable. Thus, only a modest growth rate of 1% is assumed for each subsequent year of this exemption.
