**EXPENDITURE EXPLANATION**

There will be an indeterminable increase in expenditures for local school systems as a result of implementing gun safety instruction in public schools. Districts may incur costs for the development of curriculum and appropriate instructional materials. According to the NRA website, the Eddie Eagle GunSafe Program teaches children in pre-K through third grade four important steps to take if they find a gun and was developed to be readily incorporated into existing curriculum. Materials are offered at a nominal fee and include student workbooks, an animated DVD, instructor guides, brochures and student reward stickers. Program materials are also available in Spanish. Further, the website indicates grant funding may be available in some states but is limited and available on a first come, first served basis.

Schools may use MFP funds or local funds for these expenses.

**REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.
