EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

REVENUE EXPLANATION

The proposed legislation may affect revenues derived from sales and use taxes for local governmental entities. This bill provides that ballot measures in an election to incorporate part of an unincorporated area into a municipality must also include a proposition authorizing the transfer of sales and use taxes levied in the unincorporated area to the newly created municipality once the new municipality appoints officers. To the extent that portions of unincorporated areas seek to become new municipalities and both ballot measures pass, revenues for local governmental entities will be affected. There will be a zero net effect on revenues for local governmental entities. However, this measure will serve to redistribute sales and use tax revenues between a parish government and a newly created municipal government.
