

RÉSUMÉ DIGEST

ACT 426 (HB 741)

2015 Regular Session

Alfred Williams

Prior law required, pursuant to the Workforce Investment Act, the office of workforce development within the La. Workforce Commission (LWC) to coordinate with the entities which administer job training plans in the various workforce investment areas.

Prior law created the Workforce Investment Council as the state workforce investment board to meet the requirements of the Workforce Investment Act of 1998 to receive funds relevant to workforce activities, advise the governor of the needs of the state's employers and the workforce along with strategies for its continued improvement, create a common vision, a strategic state plan to assure cooperation between public and private entities, and direct the Occupational Forecasting Conference to determine the official information necessary for planning and budgeting with respect to workforce development.

New law changes references from the Workforce Investment Act to the Workforce Investment Innovation and Opportunity Act, which was enacted by congress in 2014. New law further changes "workforce investment boards" to "workforce development boards".

New law provides for the assignment of workforce development areas pursuant to the new Workforce Innovation and Opportunity Act.

New law allows the governor to decertify any local board for fraud, abuse, failure to perform their function or to meet accountability measures.

New law changes the number of members of the Workforce Investment Council pursuant to the Workforce Innovation and Opportunity Act.

New law alters the composition of the membership of local workforce development boards pursuant to the Workforce Innovation and Opportunity Act.

New law repeals prior law regarding programs no longer relevant under the new Workforce Innovation and Opportunity Act. The functions of these programs are handled by the office of workforce development within LWC. The repealed programs are:

- (1) The Work Opportunity Program which was designed to increase employment opportunities to those on public aid.
- (2) Youth Corps Litter Control and Incentive Employment Program which was designed to provide part-time employment opportunities to students while cleaning up the state's highways.
- (3) Displaced Workers Retraining Program which was created to provide job-search assistance to those unemployed because their industry has relocated out of Louisiana.
- (4) Youth Summer Employment Program which was created to provide summer employment opportunities to students who reside in economically depressed areas.
- (5) Workforce Preparation Program which provided targeted educational, occupational, or training services to prepare individuals for employment in demand occupations.
- (6) Louisiana Health Works Commission which was created to serve as a collaborative working group to integrate and coordinate resources for workforce development within various state departments and key organizations.

Effective August 1, 2015
