EXPENDITURE EXPLANATION

Proposed law creates substantial reporting requirements for agencies. These activities are assumed to be absorbable within existing staff resources, however, monthly and quarterly reporting requirements will likely require an increase in overtime work by agency personnel (particularly the La Department of the Treasury) on a recurring basis. To the extent impacted agencies are not able to absorb any increased workload with existing resources, they may require indeterminable additional budget and possibly staff resources (assumed to be SGF).

Proposed law will likely result in an indeterminable increase in SGF in the current fiscal year, FY 17, due to the requirement of developing of a training manual for the classification of revenues and other matters by early FY 18. This provision is likely to require overtime for staff at the Office of Statewide Reporting and Accounting Policy that cannot be quantified at this time.

Proposed law will require JLCB approval regarding the creation of escrow funds, requests to refund certain monies from escrow funds, and the transfer of monies from escrow funds into the operating accounts of agencies. To the extent that agencies may need to wait for the next meeting of the JLCB, proposed law may result in an indeterminable impact on daily operations and access to monies but should not result in any increased cost.
