The office and the secretary shall review the production expenditure verification report and may require additional information needed to make a determination. Within one hundred twenty days of the receipt of the production expenditure verification report and all required supporting information, the office and the secretary shall issue a tax credit certification letter indicating the amount of tax credits certified for the state-certified production to the investors for all qualifying expenditures verified by the office. Any expenditures for which tax credits were neither denied nor certified due to insufficient information or other issues, the office and secretary shall diligently work to resolve the outstanding issues in a timely manner, and the office and secretary may subsequently issue a supplemental tax credit certification at the time of such resolution.

(iv) State-certified productions for scripted episodic content and approved QEC's may submit more than one request for final certification of tax credits, but no more frequently than once per calendar year, in accordance with the terms of the initial certification letter or QEC contract and instructions by the office.

(b) Tax credits certified for goods and services provided by related parties to a state-certified production shall be further limited as follows:

(i) Qualifying production expenditures for Above the Line, or "ATL",
services salaries provided by related parties shall be limited to twelve percent of
total Louisiana production expenditures.

I. Commencing no later than January 31, 2016, the House Committee on
Ways and Means and the Senate Committee on Revenue and Fiscal Affairs shall
review the credit authorized pursuant to the provisions of this Section to determine
if the economic benefit provided by such credit outweigh the loss of revenue realized
by the state as a result of awarding such credit. The House and Senate committees
shall make a specific recommendation no later than March 1, 2017, to either continue
the credit or to terminate the credit. No credits shall be allowed pursuant to this
Section for applications received on or after July 1, 2025.

J. Credit caps, structured pay outs, and project size limitations

(1) Department of Economic Development program issuance cap.

(a) The department shall by rule establish the method of provisionally
allocating available tax credits in initial certification letters, and the method for
granting tax credits in final tax credit certification letters, including but not
limited to a first-come, first-served system, reservation of tax credits for a
specific time period, or other method which the department, in its discretion,
may find beneficial to the program.

(b) For applications for state-certified productions and qualified
entertainment companies submitted on or after July 1, 2017, the total amount
of all tax credits granted in a final certification letter by the department in any
fiscal year shall not exceed one hundred fifty million dollars. Twenty percent of
the annual program cap shall be reserved as follows: five percent for qualified
entertainment companies, five percent for Louisiana screenplay productions,
and ten percent for independent film productions. If the total amount of credits
applied for in any particular year exceeds the aggregate amount of tax credits
allowed for that year, the excess shall be treated as having been applied for on
the first day of the subsequent year.
(c)(i) If the total amount of credits granted to QEC's in any fiscal year is less than the QEC cap, any residual amount of unused credits shall carry forward for use in subsequent years and may be granted in addition to the QEC cap for each year.

(ii) If the total amount of credits granted in any fiscal year to screenplay productions or independent film productions is less than their respective caps, any residual amount may be available for issuance by the department during that fiscal year as established by rule.

(d) The department shall make reasonable efforts to post a listing of estimated amounts available under the cap on its website.

(2) Department of Revenue taxpayer claim cap.

(a) Beginning July 1, 2017, claims against state income tax allowed on returns for tax credits or transfers of such tax credits, including legacy credits, to the Department of Revenue as provided for in Paragraph (C)(4) of this Section shall be limited to an aggregate total of one hundred eighty million dollars each fiscal year. If less than one hundred eighty million dollars of such tax credits and transfers are allowed in a fiscal year, the remaining amount, plus any amounts remaining from previous fiscal years, shall be added to the one hundred eighty million dollar limit of subsequent fiscal years until that amount of tax credits or tax credit transfers to the Department of Revenue are claimed and allowed.

(b)(i) Claims for tax credits or transfers of tax credits to the Department of Revenue shall be allowed on a first-come, first-served basis. Any taxpayer whose claim for such tax credits or transfer to the Department of Revenue is disallowed because the fiscal year cap has been reached may use the tax credits against state income tax due in an original return filed in the next fiscal year or may transfer tax credits to the Department of Revenue the next fiscal year, and his claim or transfer shall have priority over other claims filed or transfers applied for after the date of his original claim or application for transfer.
(ii) If a claim against state income tax for a tax credit is disallowed because the fiscal year cap has been reached, the Department of Revenue may provide for an abatement of interest pursuant to R.S. 47:1601 and a waiver of delinquent payment penalties pursuant to R.S. 47:1603.

(iii) Any transferor whose transfer of legacy credits to the Department of Revenue exceeds ten million dollars in one fiscal year shall be paid a maximum of ten million dollars that year and may transfer the remaining legacy credits, up to a maximum of ten million dollars for each subsequent fiscal year, to the Department of Revenue and his transfer shall have priority over other transfers applied for after the date of his original application for transfer.

(c) For all completed applications for transfer submitted to the Department of Revenue on or after July 1, 2017, the face value of the credits transferred to the Department of Revenue shall be subtracted from the remaining available Department of Revenue taxpayer claim cap.

(d) The Department of Revenue shall make reasonable efforts to post a listing of estimated amounts available under the cap on its website.

(3) Department of Economic Development individual project issuance cap.

(a) Project-based production tax credit. For applications for state-certified productions on or after July 1, 2017, the maximum amount of credits that may be granted for a single state-certified production shall not exceed twenty million dollars, except for state-certified productions for scripted episodic content that may be granted up to twenty-five million dollars per season.

(b) Company-based QEC payroll tax credit. For applications for qualified entertainment company contracts on or after July 1, 2017, the maximum amount of credits that may be granted for a single company shall not exceed one million dollars per year.

(4) Department of Economic Development individual payroll cap.
(a) Project-based production tax credit. For applications for state-certified productions on or after July 1, 2017, the maximum amount of qualifying payroll expenditures made for the services rendered by an individual, whether directly to an individual, or indirectly through a loan out company, shall be three million dollars per person and no tax credits shall be earned for payroll expenditures in excess of three million dollars per person.

(b) Company-based QEC payroll tax credit. For applications for qualified entertainment company contracts on or after July 1, 2017, the maximum amount of qualifying QEC payroll expenditures shall be two hundred thousand dollars per person, for each employee as reported on a Form W-2, and no tax credits shall be earned for payroll expenditures in excess of two hundred thousand dollars per person.

(5) Department of Economic Development structured pay outs.

(a) The department may, at its discretion, require credits for any size production or approved QEC to be structured over the course of two or more years, as provided for in the initial certification letter or QEC contract.

(b) The department shall by rule establish the circumstances under which a structured pay-out of credits may be required, including but not limited to the availability of tax credits in any given year or the best interests of the state.

Proposed law limits the maximum credit available for the combined base investment, the out-of-zone and Louisiana screenplay base investment enhancements, and the additional Louisiana payroll and visual effects credits to 40% of base investment.

Proposed law also creates a new payroll tax credit for qualified entertainment companies. The tax credit is 10% for Tier 1 new jobs with payroll between $45,000 and $66,000 per year, or 20% for Tier 2 new jobs with payroll between $66,000 and $200,000 per year.

from the qualified accountant that all allocations of the tax credits to partners of a partnership or members of an L.L.C. conform with federal tax requirements.

Proposed law requires all state-certified productions participate in a career-based learning and training program approved by the office.

Present law specifies that state-certified productions may only seek one final certification of tax credits after the expiration of the initial certification period, except for state-certified productions with Louisiana post production activities.

Proposed law adds an exception for state-certified productions for scripted episodic content and qualified entertainment credits, which may request final certification of tax credits more than once.

Proposed law requires that catering and craft services be purchased from a Louisiana source to be eligible for the tax credit.

Proposed law defines "independent film production" and "Louisiana screenplay production".

Proposed law ends transfers of certain motion picture tax credits to third parties after 12/31/17.

Present law provides that motion picture production companies may transfer credits to the Department of Revenue for 85% of the face value.

Proposed law retains present law for projects with an application date before July 1, 2017.

Proposed law provides that projects with an application date on or after July 1, 2017, may transfer credits to the Department of Revenue for 90% of the face value.

Proposed law adds requirements to the application process that prevents stacking of film credits.

Proposed law makes the $150 million annual credit granting cap permanent for applications submitted on or after July 1, 2017. Adds a 5% carve out of the front-end cap to qualified entertainment companies, a 5% carve out for Louisiana screenplay productions and a 10% carve out for independent film productions.

Present law provides that a single state-certified production shall not exceed $30 million.

Proposed law provides that a single state-certified production shall not exceed $20 million, except for state-certified productions for scripted episodic content which may grant up to $25 million per season.

Present law requires the Senate Committee on Revenue and Fiscal Affairs and House Committee on Ways and Means to study this tax credit and make a recommendation regarding the tax credit by March 1, 2017.

Proposed law replaces the study and recommendation provision with a sunset provision that provides that no credits shall be authorized for applications received after July 1, 2025.

Present law specifies that for fiscal years 2015-2018, no more than $180 million may be claimed on returns, and that there shall be no cap beginning in Fiscal Year 2018-2019.

Proposed law specifies that beginning July 1, 2017, no more than $180 million of credits may be claimed on tax returns or transferred to the Department of Revenue per fiscal year.

Proposed law provides for a procedure for the transfer of legacy tax credits that have been
recorded in the Louisiana Tax Credit Registry by January 1, 2018, to the Department of Revenue for 85% of face value.

Proposed law requires the Department of Revenue to subtract the face value of the credit from the remaining available cap when a credit or legacy credit is transferred to the Department of Revenue for completed transfer applications submitted to the Department of Revenue after July 1, 2017.

Present law contains several duplicate provisions of law that proposed law removes or merges.

Effective upon signature of the governor or lapse of time for gubernatorial action.
