 Removes bottle-size limitations on containers of wine shipped directly to consumers. (8/1/19)

Present law provides that certain wine producers, manufacturers, and retailers may sell and ship directly to Louisiana consumers, and stipulates that the sparkling or still wine must be shipped in 750 milliliter bottles, with a maximum of 144 bottles per adult per household address per calendar year.

Proposed law provides that the bottle size limitation is removed but that the total volume of sparkling or still wine shipped shall not exceed 108 liters of wine per household address per calendar year.

**EXPENDITURE EXPLANATION**

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

**REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.

Proposed law removes the limitation on bottle size and on the number of bottles of wine that may be shipped directly to Louisiana consumers. However, the limit on the liter-volume of wine that may be shipped to a particular recipient per year is unchanged. Thus, no impact is anticipated on the liter-volume of wine shipped.

As the excise tax on wine is applied on a per liter basis, no impact on excise tax revenues is anticipated.
