SB 65 Engrossed

DIGEST
2019 Regular Session

Lambert

Present law requires each crab trap to have a minimum of three escape rings and be placed on the vertical, outside walls flush with the trap floor or baffle, with at least two rings located in the upper chamber.

Proposed law requires a minimum of two escape rings be located in the upper chamber flush with the baffle and requires a minimum of one escape ring be located in the lower chamber no greater than one mesh length from the trap floor.

Proposed law requires all escape rings be located no greater than one mesh length from the corners, beginning on July 1, 2022.

Effective upon signature of the governor or lapse of time for gubernatorial action.

(Amends R.S. 56:332(K))
