EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

REVENUE EXPLANATION

Proposed amendment fully exempts diapers and feminine hygiene products from the state sales and use tax, and specifies an effective date of January 1, 2021.

LA Dept. of Revenue (LDR) does not collect data on consumer purchases of these products. FY21 sales for these products has been projected using a combination of population data, personal and household consumption data, public market research reports and summaries, and fiscal impact estimates of similar recent legislation in other states. More detail on these estimates is provided in the fiscal note for the accompanying legislation in SB 5.

The exemption is applied beginning January 1, 2021, resulting in an estimated half-year impact of approximately \$4.8M to the general fund for FY21. The combined full-year impact of the exemptions, beginning in FY22, is an annual revenue loss of approximately \$9.6M. To the extent that political subdivisions currently levy the tax, and subsequently apply the exemptions, local revenues will also decrease in all years.
