§965.2. Short title

R.S. 49:965.2 through 965.9 may be cited as the Regulatory Flexibility Small Business Protection Act and are referred to therein as "this Act".

§965.3. Intent; legislative findings

A. It is the legislative intent and purpose of this the Small Business Protection Act to improve state rulemaking by creating procedures to analyze the availability of more flexible regulatory approaches for small businesses.

B. The legislature finds that:

(1) A vibrant and growing small business sector is critical to creating jobs in a dynamic economy. Increased hiring in Louisiana's small businesses creates higher wages and better outcomes for Louisiana's citizens and families.

(2) Small businesses bear a disproportionate share of regulatory costs and burdens. Increased regulatory costs decrease the amount of capital that small businesses have to create new jobs.

(10) The Prior to the adoption of regulations, the process by which state regulations are developed and adopted should be reformed to require agencies to solicit the ideas and comments of small businesses, to examine the impact of proposed and existing rules on such businesses, and to review the continued need for existing rules.

(11) Regulations affect small businesses differently than their larger counterparts. According to the United States Small Business Administration, evidence indicates that regulatory requirements at the federal and state level tend to create disproportionately heavier burdens for small businesses, putting them at a disadvantage relative to their larger competitors. Reasons that small businesses are at a disadvantage include the following:

(a) The cost of regulations is higher relative to available resources. The cost of regulations per employee is higher for businesses with fewer employees.
(b) The cost per employee for the smallest businesses is typically one or more times greater than the equivalent cost for the largest businesses.

(12) Making small businesses aware of proposed state regulations prior to implementation is key to creating an effective partnership between state agencies and small businesses.

C. Nothing in the Regulatory Flexibility Small Business Protection Act shall be interpreted or construed to limit the ability of an agency to propose rules.
