1 AN ACT

2 To enact R.S. 40:5.5.4, relative to regulation of food service establishments; to require such  
3 establishments that serve crawfish or shrimp which originate outside of the United  
4 States to inform patrons that the seafood is of foreign origin; to provide for  
5 enforcement of the requirement by the Louisiana Department of Health; to provide  
6 for definitions; to provide for legislative intent; to provide for an effective date; and  
7 to provide for related matters.

8 Be it enacted by the Legislature of Louisiana:

9 Section 1. R.S. 40:5.5.4 is hereby enacted to read as follows:

10 §5.5.4. Imported crawfish and shrimp; notice to patrons of food service  
11 establishments required

12 A. As reflected in Act No. 330 of the 2009 Regular Session of the  
13 Legislature, this state recognizes that serious risks to public health may be posed by  
14 antibiotics, radiation, and numerous toxins found in seafood products, including but  
15 not limited to crawfish and shrimp, that originate outside of the United States. It  
16 remains the intent of the legislature to protect Louisiana consumers from potentially  
17 harmful chemicals and residues in seafood products that are imported from foreign  
18 countries and sold or served in food service establishments in this state. Therefore,  
19 the legislature declares that Louisiana consumers have the right to know if crawfish

1           or shrimp imported from a foreign country is being served in a food service  
2           establishment, as the consumption of such seafood may pose a health risk.

3           B.(1) Any food service establishment that uses a menu as a standard business  
4           practice and sells or provides cooked or prepared crawfish or shrimp that originate  
5           outside of the United States shall display on all menus the country of origin of such  
6           crawfish or shrimp or, denote that the crawfish or shrimp are imported, in letters no  
7           smaller than the same size, font, and shade as the product being offered, immediately  
8           adjacent to the menu listing of the seafood item being sold. In lieu of this  
9           requirement, the notice shall be paper-clipped to the menu, with the same location,  
10          size, font, and shade restrictions required when the notice is listed directly on the  
11          menu.

12          (2) Any food service establishment that does not use a menu as a standard  
13          business practice and sells or provides cooked or prepared crawfish or shrimp that  
14          originate outside of the United States shall display on a sign posted at the main  
15          entrance to the establishment that certain crawfish or shrimp, as applicable, being  
16          served within originate from a foreign country. Each sign shall be at least eighteen  
17          inches tall and eighteen inches wide and shall be written in the English language in  
18          letters not less than one inch in size. The sign shall be placed in an open area and in  
19          a conspicuous position not less than thirty-six inches from the floor so that it is  
20          visible to all patrons.

21          C. Any violation of this Section shall constitute a violation of the state  
22          sanitary code.

23          D. The Louisiana Department of Health shall promulgate all such rules in  
24          accordance with the Administrative Procedure Act as are necessary to enforce the  
25          provisions of this Section.

26          E. For purposes of this Section, "food service establishment" shall have the  
27          meaning ascribed in R.S. 40:5.5.

28          Section 2. This Act shall become effective upon signature by the governor or, if not  
29          signed by the governor, upon expiration of the time for bills to become law without signature  
30          by the governor, as provided by Article III, Section 18 of the Constitution of Louisiana. If

1 vetoed by the governor and subsequently approved by the legislature, this Act shall become  
2 effective on the day following such approval.
