

2020 Regular Session

HOUSE BILL NO. 469

BY REPRESENTATIVES BEAULLIEU AND GAROFALO

BUDGETARY CONTROLS: Provides for changes in the expenditure limit calculation

1 AN ACT

2 To amend and reenact R.S. 39:33.1(A) through (C), relative to the expenditure limit; to
3 provide for submission of the expenditure limit to the legislature; to provide for the
4 base for determining the expenditure limit; to cap the annual growth of the
5 expenditure limit; to provide for the calculation of the growth factor; to provide for
6 the calculation of state general fund and dedicated funds applicable to the
7 expenditure limit; to provide for effectiveness; and to provide for related matters.

8 Be it enacted by the Legislature of Louisiana:

9 Section 1. R.S. 39:33.1(A) through (C) are hereby amended and reenacted to read
10 as follows:

11 §33.1. Determination of expenditure limit

12 A. The commissioner of administration shall submit a calculation for the
13 expenditure limit for the ensuing fiscal year to the Joint Legislative Committee on
14 the Budget ~~no later than thirty-five days prior to each regular session~~ at the same
15 time the executive budget is submitted to the Joint Legislative Committee on the
16 Budget pursuant to R.S. 39:37.

17 B.(1) The expenditure limit for the ensuing fiscal year shall be the
18 ~~expenditure limit for the current fiscal year plus an amount equal to that limit times~~
19 ~~the growth factor if the growth factor is positive.~~ lesser of the following:

1 (a) The original calculated expenditure limit for the current fiscal year plus
2 an amount equal to that limit times the lesser of five percent or the growth factor.

3 (b) The amount appropriated out of the state general fund and dedicated
4 funds for the current fiscal year plus an amount equal to that appropriated amount
5 times the lesser of five percent or the growth factor.

6 (2) The growth factor is defined as the average of the following four
7 indicators:

8 (a) The average annual percentage rate of change of personal income for
9 Louisiana as defined and reported by the United States Department of Commerce,
10 or its successor agency, for the three calendar years prior to the fiscal year for which
11 the limit is calculated.

12 (b) The average annual percentage rate of change of the gross domestic
13 product of Louisiana as defined and reported by the United States Department of
14 Commerce, or its successor agency, for the three calendar years prior to the fiscal
15 year for which the limit is calculated.

16 (c) The average annual percentage rate of change of population for Louisiana
17 as defined and reported by the United States Department of Commerce, or its
18 successor agency, for the three calendar years prior to the fiscal year for which the
19 limit is calculated.

20 (d) The average annual percentage rate of change of the consumer price
21 index for the South Region as defined and reported by the United States Department
22 of Labor, or its successor agency, for the three calendar years prior to the fiscal year
23 for which the limit is calculated.

24 (3) The figures used for the calculation of the growth factor shall be those
25 actual or estimated figures most recently reported ~~by the United States Department~~
26 ~~of Commerce~~ at the time the expenditure limit is submitted to the Joint Legislative
27 Committee on the Budget.

DIGEST

The digest printed below was prepared by House Legislative Services. It constitutes no part of the legislative instrument. The keyword, one-liner, abstract, and digest do not constitute part of the law or proof or indicia of legislative intent. [R.S. 1:13(B) and 24:177(E)]

HB 469 Reengrossed

2020 Regular Session

Beaullieu

Abstract: Changes the base for the expenditure limit to current year appropriations, limits expenditure limit growth to five percent, and changes the method of determining the growth factor.

Present law requires the commissioner of administration to submit the calculation for the expenditure limit for the ensuing fiscal year to the Joint Legislative Committee on the Budget (JLCB) no later than 35 days prior to each regular session.

Proposed law deletes the 35-day requirement in present law and instead requires that the expenditure limit be submitted at the same time the executive budget is submitted to JLCB.

Present law provides for the determination of the expenditure limit for the next fiscal year to be based on the current limit times a positive growth factor.

Proposed law changes the base from the current expenditure limit to the lesser of the original calculated expenditure limit for the current fiscal year or the appropriated amounts out of the state general fund and dedicated funds.

Proposed law limits the growth of the expenditure limit to five percent.

Present law defines the growth factor as the three-year average growth in La. personal income.

Proposed law establishes the growth factor as the average of the following four components:

- (1) The present law three-year average growth in La. personal income.
- (2) The three-year average change in gross domestic product as defined and reported by the U.S. Dept. of Commerce, or its successor agency.
- (3) The three-year average change in state population as defined and reported by the U.S. Dept. of Commerce, or its successor agency.
- (4) The three-year average change of the consumer price index for the South Region (CPI-South) as defined and reported by the U.S. Dept. of Labor, or its successor agency.

Present law provides for the determination of the percentage rate of change of personal income in the current year and prior years. Proposed law repeals present law.

Proposed law further requires the commissioner of administration to submit documentation of the methodology and data sources used to determine the rates of change for each factor. Requires any changes in the methodology from the prior year calculation to be reviewed and approved by JLCB prior to implementation.

Present law requires the commissioner to determine the state general fund and designated funds to be used in the expenditure limit.

Proposed law requires the commissioner to determine what funds are to be excluded as well as included in the expenditure limit. Further requires the commissioner to determine the state general fund and dedicated funds to be included and excluded from the determination of the amount appropriated in the current fiscal year applicable to the expenditure limit.

Proposed law specifically exempts any federal funds related to the COVID-19 crisis from being counted towards the state's expenditure limit.

Effective if and when the proposed amendment of Article VII of the Constitution of La. contained in the Act which originated as House Bill No. 464 of this 2020 R.S. of the Legislature is adopted at a statewide election and becomes effective.

(Amends R.S. 39:33.1(A)-(C))

Summary of Amendments Adopted by House

The Committee Amendments Proposed by House Committee on Appropriations to the original bill:

1. Make technical changes.

The House Floor Amendments to the engrossed bill:

1. Prohibit any federal funds related to the COVID-19 crisis received by the state from being applied toward the calculation of the expenditure limit.
