DIGEST
2022 Regular Session

Present law requires that the Louisiana Bureau of Criminal Identification and Information, upon request of certain enumerated entities, provide the information contained in the bureau's criminal history records and identification files.

Proposed law adds the division of administration, office of technology services, to the list of entities available to request this information.

Proposed law retains these provisions in the present law but authorizes the bureau to submit fingerprints to the FBI for retention in the FBI rap back system. Requires the bureau to make rap back requests available to the division of administration, office of technology services. Requires that any recipient of this information maintain the confidentiality of these records.
