

Existing law authorizes the La. Board of Pharmacy to waive electronic reporting requirements for certain dispensers.

New law authorizes the board to exempt a dispenser whose practice activities are inconsistent with the intent of the prescription monitoring program from the statutory reporting requirement.

New law allows the board to rescind any exemptions that are issued without the necessity of having an informal or formal hearing.

Effective August 15, 2009.

(Amends R.S. 40:1006(C))
