DIGEST

Thompson (SB 36)

Proposed law requires the Louisiana Board of Animal Health to adopt rules and regulations establishing standards governing the care and well-being of livestock and poultry. The board shall consider the following when adopting the standards:

- (1) The health and husbandry of the livestock and poultry.
- (2) Generally accepted farm management practices.
- (3) Generally accepted veterinary standards and practices.
- (4) The economic impact the standards may have on livestock and poultry farmers, the affected livestock and poultry sector, and consumers.

Proposed law prohibits municipalities, parishes, local governmental entities or governing authorities of any group or association, private or public, having jurisdiction over a specific geographic area from enacting ordinances, laws, subdivision restrictions or regulations establishing standards applicable to the care and well-being of livestock and poultry.

Proposed law provides that municipalities, parishes, and local governmental entities or governing authorities of any group or association may request that the rules and regulations establishing standards applicable to the care and well-being of livestock and poultry be amended to provide for specific problems encountered in or by the entity, group or association. The following provisions shall govern any such request:

- (1) The request shall be addressed to the commissioner.
- (2) The Board of Animal Health shall conduct a hearing.
- (3) The Board of Animal Health shall make a preliminary determination as to the advisability of amending the state rules and regulations and shall transmit its determination to the commissioner.
- (4) The commissioner shall make the final determination as to the desirability of amending the state rules and regulations.
- (5) If the commissioner determines that the rules and regulations should be amended, a rule or regulation consistent with the commissioner's determination shall be adopted by the commission in accordance with the APA. If the commissioner determines that the rules

or regulations should not be amended, a written notice of the decision shall be provided to the requesting party.

Proposed law allows municipalities, parishes, and local governmental entities to petition the commissioner for approval of an ordinance establishing standards applicable to the care and well-being of livestock and poultry. The governing authority of a public or private group or association may petition the commissioner for approval of restrictions applicable to the specific geographic area over which the group or association has jurisdiction. Provides a procedure for obtaining such approval.

Proposed law provides that municipalities, parishes, and local governmental entities or governing authorities of a public or private group or association, having in effect, on July 1, 2010, an ordinance or restriction establishing standards applicable to the care and well-being of livestock and poultry shall submit the ordinance to the commissioner on or before December 1, 2010, for approval. Any such ordinance or restriction received by the commissioner on or before December 1, 2010, shall continue in full force and effect unless the commissioner disapproves the ordinance or restriction in accordance with proposed law. Voids any such ordinance not received by the commissioner on or before December 1, 2010.

Effective upon signature of the governor or lapse of time for gubernatorial action.
