

Prior law provided that the La. School for Math, Science, and the Arts shall primarily admit high school juniors and seniors, but allows the school's board of directors to provide for early admission of students with exceptional abilities who are not yet high school juniors.

New law authorizes the school to admit high school sophomores on the same basis as juniors and seniors and deletes the authority of the school's board of directors to provide for an "early admission year" for other classes of students.

Effective June 8, 2010.
