

Prior law prohibited a health and accident policy from being issued in this state until a copy of the policy form has been filed with the commissioner of insurance. Further prohibited use of such policy until the expiration of 30 days after filing unless the commissioner gave his written approval sooner.

New law increases the amount of time before a health and accident policy form is deemed approved for use in this state before the commissioner of insurance's approval from 30 days to 45 days; otherwise retains prior law.

Effective August 15, 2010.
