Opp. Chamb. Action:

Proposed Amd.: **w/ PROP HSE COMM AMD**

Sub. Bill For.:

Date: June 1, 2011	4:24 PM	Author: LANDRY
Dept./Agy.: Revenue		Analyst: Deborah Vivien
Subject: State sales tax exemption for adaptive devices in vehicles		

TAX/SALES-USE, STATE OR DECREASE GF RV See Note Page 1 of 1
 Authorizes a state sales and use tax exemption for the purchase and installation of certain adaptive devices for persons with orthopedic disabilities

Proposed law provides a state sales and use tax exemption for the purchase of the vehicle which has been or is intended to be modified for transport of or operation by a person with permanent orthopedic disabilities. The bill specifies the modifications required including wheelchair lifts, steering systems, etc. The recipient must have a medical prescription for the modifications. Upon presentation of certain documents according to the Secretary of Revenue, the Department of Revenue will provide a refund of the documented sales tax. Tax refunds can only occur after expenditures are made and documented. The Department will also promulgate rules outlining the documents required for eligibility. Travel trailers or other vehicles not designed to transport people are not included in the exemption.

Effective October 1, 2011 but is retroactive to purchases made on or after January 2, 2010.

Local Funds	\$0	\$0	\$0	\$0	\$0	\$0
Annual Total	\$0	\$0	\$0	\$0	\$0	\$0

EXPENDITURE EXPLANATION

Because this bill includes the submission and analysis of qualifying documentation, there will be costs incurred by the department to initiate and implement the refund. The number of refunds to be processed is unknown, but seems likely to be relatively small.

REVENUE EXPLANATION

This bill would exempt purchases of modified vehicles from 4% of state sales tax. The FY 11/12 decrease in state general fund will presumably be larger than the subsequent years because it includes almost two years of refunds due to the retroactive effective date of the bill. There is no information available on the number of motor vehicles purchased in Louisiana that meet the bill's requirements that will be modified and subject to sales tax refunds, although the number of such vehicles is likely to be relatively small. Thus, while some refunds will occur and state revenue collections will be reduced, the total annual refunds are likely to be small. For example, if the average cost of a vehicle plus modifications is \$30,000, then for every 100 vehicles exempt from 4% state sales tax, state general fund revenue would decline by \$120,000.

Local taxes are not affected by this bill.
