Provides relative to qualifications of applicants for alcoholic beverage permits. (8/1/12)

Current law stipulates the qualifications for applicants for state and local alcoholic beverage permits issued by the LA Alcohol and Tobacco Control or a local entity, including a list of convictions, either state or federal, that would be disqualifiers. Current law also states that the licensee should be of good character.

Proposed law retains current law and states that the successful applicant for an alcoholic beverage permit will be a person who poses no threat to the public interest of the state whether by prior activities, criminal record, reputation, habits or associations. The successful applicant could also pose no threat through unsuitable, unfair or illegal practices, methods or operations in the state. Proposed law adds that a dual applicant for an alcohol permit and video gaming license may not be convicted of theft, crimes involving giving false statements or gambling (as defined by local, state or federal statute). Licensees have a duty to report violations, perceived or real. Once the permit is awarded, the bill appears to provide that suitability is maintained throughout the term of the permit, regardless of interim activity.
