AN ACT

To amend and reenact R.S. 17:3996(B)(15), to enact R.S. 17:267, and to repeal R.S. 17:281, relative to sex education instruction in public schools; to require rather than authorize sex education in public schools; to provide for guidelines and curricula for such instruction; to provide for definitions; to provide for applicability; to provide for rules and regulations; to provide for effectiveness; and to provide for related matters.

Be it enacted by the Legislature of Louisiana:

Section 1. R.S. 17:267 is hereby enacted to read as follows:

§267. Sex education; required instruction

A. The legislature finds that sex education promotes healthy attitudes concerning growth and development, body image, gender identity, dating, relationships, and family life and provides students with the information and skills they need to develop positive values, make good decisions, and respect the important role sexuality plays throughout a person's life. Effective sex education instruction is part of a broader instruction program preparing young people to reach intellectual and emotional maturity.

B. For the purposes of this Section, the following terms shall have the following meanings:
(1) "Age appropriate" means topics, messages, and teaching methods suitable to particular ages or age groups of children and adolescents, based on developing cognitive, emotional, and behavioral capacity typical for the age or age group.

(2) "Medically accurate" means supported by peer-reviewed research conducted in compliance with accepted scientific methods and recognized as accurate by leading professional organizations and agencies with relevant experience, such as the American Medical Association.

C.(1) The governing authority of each public elementary and secondary school shall provide students, each year, medically accurate, developmentally appropriate, and age appropriate instruction, relative to sex education.

(2) Such instruction, as appropriate, shall include the following:

(a) Information about human sexuality as a normal and healthy aspect of human development.

(b) Information stressing that abstinence is the most reliable way to prevent pregnancy and sexually transmitted diseases.

(c) The health benefits, side effects, and proper use of contraceptives approved by the federal Food and Drug Administration to prevent unintended pregnancy and of barrier methods approved by the United States Food and Drug Administration to prevent sexually transmitted infections.

(d) Information which helps students develop relationship and communication skills necessary to form healthy, age appropriate relationships throughout their lives based on mutual respect and affection and free from violence, coercion, and intimidation.

(e) Lessons to help students develop skills in critical thinking, problem solving, decision making, and stress management in order to make responsible decisions about sexuality and relationships.

(f) Emphasis on encouraging students to communicate with their parents, guardians, and other trusted adults about sexuality and intimate relations.
(3) The governing authority of each public school shall make sex education curriculum materials available to parents and legal guardians upon request.

(4) A student shall be excused from sex education instruction upon the written request of a parent or legal guardian, and such student shall not be subject to disciplinary action, academic penalty, or any other sanction.

D. No part of sex education instruction shall in any way advocate or support abortion.

E. The State Board of Elementary and Secondary Education shall be responsible for the following:

(1) Prescribing guidelines and recommending suitable curricula and teaching materials for the required instruction.

(2) Requiring minimum qualifications and training for teachers who provide sex education instruction.

(3) Adopting rules and regulations, in accordance with the Administrative Procedure Act, to implement the provisions of this Section.

F. A public school governing authority may accept federal funds relative to sex education instruction only when the use of such funds does not violate the provisions of this Section.

Section 2. R.S. 17:3996(B)(15) is hereby amended and reenacted to read as follows:

§3996. Charter schools; exemptions; requirements

* * *

B. Notwithstanding any state law, rule, or regulation to the contrary and except as may be otherwise specifically provided for in an approved charter, a charter school established and operated in accordance with the provisions of this Chapter and its approved charter and the school's officers and employees shall be exempt from all statutory mandates or other statutory requirements that are applicable to public schools and to public school officers and employees except for the following laws otherwise applicable to public schools with the same grades:

* * *

CODING: Words in struck through type are deletions from existing law; words underscored are additions.
Section 3. R.S. 17:281 is hereby repealed in its entirety.

Section 4. This Act shall become effective on July 1, 2015.

Smith HB No. 369

Abstract: Requires rather than authorizes sex education in public schools.

Present law authorizes any public elementary or secondary school, including a charter school, to offer instruction in sex education in grades seven and above, provided such instruction and subject matter is integrated into an existing course of study. Provides that the content of such instruction is limited to scientific information and shall not include religious beliefs, practices in human sexuality, or subjective moral and ethical judgments. Provides that the major emphasis of any sex education instruction shall be to encourage sexual abstinence between unmarried persons.

Proposed law requires public school governing authorities, including those of charter schools, to provide instruction in sex education each year to students. Specifies that such instruction be medically accurate and developmentally and age appropriate and include the following:

1. Information about human sexuality as a normal and healthy aspect of human development.

2. Information stressing that abstinence is the most reliable way to prevent pregnancy and sexually transmitted diseases.

3. The health benefits, side effects, and proper use of contraceptives approved by the U.S. Food and Drug Administration (FDA) to prevent unintended pregnancy and of FDA-approved barrier methods to prevent sexually transmitted infections.

4. Information which helps students develop skills necessary to form healthy, age appropriate relationships.

5. Lessons to help students develop skills in critical thinking, problem solving, decision making, and stress management.

6. Emphasis on encouraging students to communicate with parents about sexuality and intimate relations.

Present law provides that the qualifications for all teachers or instructors in sex education shall be established and the selection of all such teachers or instructors shall be made by the school board. Requires approval of materials to be used by the school board and a parental review committee.

Proposed law requires public school governing authorities to make sex education materials available to parents. Requires the State Board of Elementary and Secondary Education...
(BESE) to prescribe guidelines and recommend curricula and teaching materials, to prescribe qualifications and training for instructors, and to adopt rules and regulations.

Present law excuses students from instruction upon parental request. Provides that no part of sex education instruction shall in any way advocate or support abortion and authorizes public school governing authorities to accept federal funds when their use does not violate proposed law. Proposed law retains present law.
