

Regular Session, 2014

HOUSE BILL NO. 2

BY REPRESENTATIVE ROBIDEAUX

CAPITAL OUTLAY: Provides for the comprehensive Capital Outlay budget

1 AN ACT

2 To provide with respect to the capital outlay budget and the capital outlay program for state
3 government, state institutions, and other public entities; to provide for the
4 designation of projects and improvements; to provide for the financing thereof
5 making appropriations from certain sources; and to provide for related matters.

6 Be it enacted by the Legislature of Louisiana:

7 Section 1. The following sums or so much thereof as may be necessary are hereby
8 appropriated out of any monies in the state treasury from the sources specified, from federal
9 funds and self-generated revenues belonging to the state of Louisiana and/or collected by
10 boards, commissions, departments, and agencies thereof, all for making capital outlay and
11 for the purposes and in the amounts specified herein for the Fiscal Year commencing July
12 1, 2014, and ending June 30, 2015, subject to the conditions thereafter provided:

13 A project with funding payable from General Obligation Bonds Priority 1 indicates
14 that the funding for the project includes the reauthorization of funding which was previously
15 on a line of credit granted by the State Bond Commission in Fiscal Year 2013-2014. As
16 used in this Section, the term "general obligation bonds" means state general obligation
17 bonds or other evidences of indebtedness payable from the Bond Security and Redemption
18 Fund. The amount set forth in this Section opposite each project, or so much thereof as may
19 be necessary, is hereby appropriated and payable from the proceeds available from the sale
20 of general obligation bonds, unless a different source of funding is indicated. Where such
21 a different source of funding is indicated, the corresponding amount set forth, or so much

1 thereof as may be necessary, is hereby appropriated and payable from the source of funding
2 indicated; provided, however, amounts appropriated and payable from federal funds may be
3 encumbered or expended only to the extent such amounts shall have been committed or
4 received. Pursuant to the provisions of R.S. 39:82, funds for planning, acquisition,
5 construction, and major repair projects appropriated by this act may be retained until
6 completion of the project, even if no bona fide liability exists on the last day of the fiscal
7 year.

8 This Act shall constitute the comprehensive state capital outlay budget for the 2014-
9 2015 Fiscal Year. Projects set forth which are payable from the proceeds available from the
10 sale of general obligation bonds shall have the priorities as indicated. The Request for Line
11 of Credit form used by the Attorney General and Bond Counsel in evaluating Louisiana
12 Constitutional, Internal Revenue Code, and applicable income tax regulations shall be filed
13 with the Commissioner of Administration, State Bond Commission, and State Attorney
14 General. No general obligation bonds shall be sold, nor cash lines of credit granted to fund
15 any lower priority project prior to the sale of general obligation bonds or the granting of cash
16 lines of credit to fund all higher priority projects (the "general rule"), except as hereinafter
17 provided. This prohibition against funding a lower priority project shall not apply upon a
18 showing of an impossibility or impracticality either to proceed with all unfunded higher
19 priority projects or to proceed with the funding of such projects or any part thereof through
20 the issuance of general obligation bonds for any reason. Such showing shall be stated in
21 reasonable detail in a certificate or certificates signed by the state agency responsible for
22 administering the funding, and filed with the Commissioner of Administration and the State
23 Bond Commission (hereinafter referred to as "the Commission"). Upon a determination by
24 the Commission that proceeding with such a project or the funding thereof through the
25 issuance of general obligation bonds is impractical or impossible, the Commission may then
26 proceed with the sale of general obligation bonds or the granting of cash lines of credit
27 without regard to the priority of the unfunded projects determined to be impossible or
28 impractical.

29 Upon recommendation by the state agency responsible for administering the funding,
30 if it is determined at any time that proceeding with the project or with the funding thereof

1 is no longer impossible or impractical, the State Bond Commission may rescind the
2 certificate of impossibility or impracticality and may proceed with the project or with the
3 issuance of general obligation bonds or the granting of cash lines of credit to fund the
4 project. Alternatively, the Interim Emergency Board (hereinafter referred to as "the Board"),
5 upon reviewing certificates as described above and determining that proceeding with such
6 project or the funding thereof through the issuance of general obligation bonds is impossible
7 or impractical, may designate a lower priority for such project. The Board's determination
8 and lower priority designation shall be submitted to the members of the Legislature for their
9 approval in accordance with the provisions of Chapter 3-B of Subtitle I of Title 39 of the
10 Louisiana Revised Statutes of 1950. In accordance with the provisions of Chapter 3-B of
11 Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950, whenever at the written
12 request of the appropriate legislators and agency, the Board determines that an adjustment
13 to a project description originally set forth in such capital budget adopted by the Legislature
14 for a current fiscal year is necessary to correct a mistake in a project description, clarify a
15 description, change the scope of a description, or make any other adjustment the Board
16 deems necessary to implement the purpose of the project, such adjustment shall only become
17 effective upon the approval by majority vote of the elected members of each house of the
18 Legislature in the manner provided for in Chapter 3-B of Subtitle I of Title 39 of the
19 Louisiana Revised Statutes of 1950.

20 If such approval is granted, notification by the chair or secretary of the Board of the
21 results of the balloting shall be transmitted to the State Bond Commission, which may then
22 proceed with the sale of general obligation bonds or the granting of cash lines of credit for
23 each change approved upon request of the Commissioner of Administration in accordance
24 with the general rule.

25 With respect to Priorities 1 through 5, a lower priority project may be moved to a
26 higher priority only upon a showing of an emergency or other cause not reasonably
27 anticipated by the Legislature, which shall be stated in reasonable detail in a certificate
28 signed by the head of the appropriate department, political subdivision, or agency and filed
29 with the Commissioner of Administration and the Board. Upon a determination by the
30 Board that such project should be moved to a higher priority because of an emergency or

1 other cause not reasonably anticipated by the Legislature, the Board shall designate a higher
2 priority to the project. The matter then shall be submitted to and be subject to the same
3 approval by the members of the Legislature in the manner previously indicated in this
4 Section. If such approval is granted, notification by the chair or secretary of the board of the
5 change of priority shall be transmitted to the State Bond Commission, which then upon
6 request of the Commissioner of Administration, may proceed with the sale of general
7 obligation bonds or the granting of cash lines of credit in accordance with the general rule.
8 As to projects within a priority, the State Bond Commission acting on requests submitted by
9 the Commissioner of Administration shall determine when such project, or phases thereof,
10 shall be funded. In making such determination, the State Bond Commission shall consider
11 the amount of proceeds of general obligation bonds to be made available in light of money
12 and capital market conditions; the expenditure requirements of the project; the time required
13 for architectural plans and drawings, public bidding, and site acquisition and preparation;
14 availability of receipt of federal monies; litigation affecting the undertaking or completion
15 of a project; federal tax laws and regulations regarding the sale of municipal bonds; and
16 other items of a similar nature bearing upon the possibility or the necessity to commence a
17 project or any particular phase thereof.

18 Any other provision of this Act to the contrary notwithstanding, projects described
19 in Priority 5 of this Act shall not be moved to a higher priority except upon one of the
20 following conditions: (1) Funding is necessary to complete or additionally fund a project
21 located elsewhere in the capital outlay act. Determination of such condition shall be made
22 by the head of the appropriate department or agency by means of a certificate to that effect
23 filed with the Interim Emergency Board, who shall, by mail ballot, request approval of such
24 change and if approved by a majority of each house of the Legislature it shall be funded, or
25 (2) unless required by an emergency or other cause not reasonably anticipated by the
26 Legislature, to be in accordance with procedures set forth in this Section. However, the State
27 Bond Commission may authorize a non-cash line of credit for any project in Priority 5 which
28 represents that portion of construction contracts which were let during a previous fiscal year,
29 or construction contracts which will be let during the current fiscal year, but which will not
30 require cash expenditures during the year. Such non-cash lines of credit, when combined

1 with previously sold bonds or with higher priority bonds or lines of credit, or with funds
2 appropriated from other sources, will provide sufficient appropriated funds to award
3 equipment or construction contracts. Contracts shall not be awarded without approval of the
4 Division of Administration.

5 Upon approval by the State Bond Commission, and subject to compliance with its
6 policies and procedures and the procedures set forth herein, a line of credit providing for the
7 use of funds in anticipation of the sale of general obligation bonds may be granted to the
8 appropriate administering agency or department from the Comprehensive Capital Outlay
9 Escrow Account, or if there is not a sufficient amount available in such account, from other
10 available state cash in the state treasury, for capital improvement projects for which bond
11 proceeds are appropriated by a current capital budget, prior to the actual issuance of bonds
12 for such projects, unless the attorney general advises that an impediment exists to the valid
13 issuance of the bonds on the date such line of credit is granted.

14 All bonds that are to be repaid, in whole or in part, by revenues generated by the
15 project shall be designated as "Reimbursement Bonds". The State Bond Commission shall
16 enter into such agreements as are necessary to provide that the agency or subdivision, whose
17 project is reimbursable, shall pay the bond debt costs into the Bond Security and Redemption
18 Fund. Such costs may be paid annually or at the end of the term of the bonds issued as
19 determined by the State Bond Commission.

20 Priority 1 general obligation bond funding shall be limited to:

21 (1) Projects and amounts which were previously authorized by Act 24 of the 2013
22 Regular Session of the Legislature; and which were granted cash lines of credit by the State
23 Bond Commission. The bonds to fund these projects were not sold in Fiscal Year 2013-
24 2014.

25 (2) The reauthorization of the portion of the outstanding Fiscal Year 2013-2014
26 Priority 5 Non-Cash Lines of Credit for projects which will require cash expenditures in
27 Fiscal Year 2014-2015 and therefore must be converted to Cash Lines of Credit in Fiscal
28 Year 2014-2015.

29 (3) Commitments made in the Higher Education Desegregation Settlement
30 Agreement.

1 Priority 2 general obligation bond projects are for the completion of plans and
2 specifications, land acquisition, site preparation, or for construction which will begin during
3 the fiscal year. It is presently anticipated that the listed projects will require the sale of
4 bonds or extension of lines of credit during the fiscal year after adoption of this Act.

5 Priority 3 general obligation bond projects are for the preparation of plans and
6 specifications, land acquisition, site preparation, or for construction and shall be limited to
7 funding for the portion of construction contracts which will not require cash expenditures
8 during the fiscal year. The projects in this category shall be considered future year projects
9 in the State's five year capital outlay plan. It is presently anticipated that the listed projects
10 will not require the sale of bonds or extension of lines of credit during the fiscal year.

11 Priority 4 general obligation bond projects are for the preparation of plans and
12 specifications, land acquisition, site preparation, or for construction and shall be limited to
13 funding for the portion of construction contracts which will not require cash expenditures
14 during the fiscal year. The projects in this category shall be considered future year projects
15 in the State's five year capital outlay plan. It is presently anticipated that the listed projects
16 will not require the sale of bonds or extension of lines of credit during the fiscal year.

17 Priority 5 general obligation bond funding shall be limited to funding for the portion
18 of construction contracts which will not require cash expenditures during the fiscal year.
19 These funds, when combined with previously sold bonds or with higher priority bonds on
20 lines of credit, or with funds appropriated from other sources, will provide sufficient
21 appropriated funds to award contracts. Non-cash lines of credit shall be required prior to the
22 award of these contracts.

23 In accordance with the cash management plan adopted pursuant to R.S. 48:251(D)
24 and the provisions of Act 161 of the 1998 First Extraordinary Session, the Department of
25 Transportation and Development is authorized to enter into contracts or agreements for
26 projects approved pursuant to the Highway Priority Program, Airport Construction and
27 Development Priority Program, Port Construction and Development Priority Program, and
28 Statewide Flood Control Program for projects bid and awarded, authorized, or commenced
29 during the fiscal year which do not require cash expenditures for the full contract or
30 agreement amount.

29 Section 2. The expenditure of funds appropriated in this Act, except appropriations
 30 made to non-profit economic development corporations, shall be in conformity to all existing
 31 statutes relative to public bidding, contractual review, and R.S. 39:101 through 128 and any
 32 other statutes affecting the capital outlay program for state government, state institutions,
 33 and political entities. No contract shall be awarded for any project prior to the granting of
 34 a line of credit or the sale of bonds by the State Bond Commission, determination by the
 35 State Treasurer that cash funding is available in the Comprehensive Capital Outlay Escrow
 36 Account for the project, or delivery of revenue bonds whose issuance is authorized in
 37 Section 1 of this Act.

38 Section 3. Payment for projects specified in this Act must be made by warrant
 39 submitted to the Division of Administration, Department of Transportation and
 40 Development, the State Treasurer or other administering agency as provided in Section 8,
 41 whichever is appropriate, only to the extent of funds required for immediate payment.

1 Copies of invoices or other supporting documentation shall be submitted with warrants. In
2 the event that any equipment included in this Act, is procured pursuant to the provisions of
3 the State Lease Purchase Act, R. S. 39:1761 et seq., the amounts included in this Act for
4 each such piece of equipment shall not be appropriated. The provisions of R.S. 39:1771
5 which require equipment to be leased under the State Lease Purchase Act to be included in
6 the executive budget and approved by the Legislature through inclusion in the General
7 Appropriation Act shall be considered waived upon the inclusion of such equipment in this
8 Act. Projects contained in this Act may, at the direction of the Division of Administration
9 and with the approval of the State Bond Commission, alternatively be funded through
10 financing programs heretofore or hereafter provided by a public trust and public corporation
11 duly organized pursuant to R.S. 9:2341 et seq., having for its beneficiary the State and the
12 Louisiana Local Government Environmental Facilities and Community Development
13 Authority, pursuant to R.S. 33:4548.1 et seq.

14 Section 4. If at any time during the Fiscal Year 2014-2015, the Governor should
15 find, or the Joint Legislative Committee on the Budget or the Commissioner of
16 Administration should report to the Governor, that the receipts of the treasury are falling
17 short or appear likely to fall short of the revenue estimates for the fiscal year and that a cash
18 deficit is likely to be incurred, the Governor shall take such steps as deemed necessary to
19 prevent the occurrence of a cash deficit. In the event that a capital outlay project funded in
20 this Act falls under an agency which is abolished or for which funds are not appropriated in
21 the 2014-2015 General Appropriation Act, then the funds appropriated in this Act for such
22 capital outlay projects shall not be expended unless deemed necessary by the Governor to
23 protect life or property. In the event that legislation is enacted which transfers facilities or
24 programs for which projects are funded in this Act, on behalf of one agency, institution,
25 department, or management board to another agency, institution, department, or management
26 board, then the projects in this Act shall be deemed transferred also.

27 Section 5. All monies appropriated by this Act and any applicable funds of a prior
28 capital outlay budget act adopted by the Legislature shall be deposited by the State Treasurer
29 in the Comprehensive Capital Outlay Escrow Account, established by this Section, in the
30 state treasury. In accordance with R.S. 36:764, no later than 60 days following the end of

1 each quarter, the state treasurer shall report to the Joint Legislative Committee on the Budget
2 and the Commissioner of Administration, all funds contained in the Miscellaneous Fund of
3 the Comprehensive Capital Outlay Escrow Account. Notwithstanding any provisions
4 contained herein or other law to the contrary, any original issue premium or accrued interest
5 proceeds received pursuant to the sale of general obligation bonds shall remain on deposit
6 to the credit of the Bond Security and Redemption Fund until such time as they may be
7 utilized in accordance with U.S. Department of Treasury Regulations promulgated pursuant
8 to the Internal Revenue Code of 1986. All such monies shall be administered according to
9 the particular act pertaining to the fiscal year in which such monies were appropriated. If
10 it is determined by the Director of the Office of Facility Planning and Control, Division of
11 Administration, that the funds appropriated by this Act or any prior capital outlay budget act
12 are not sufficient to complete the projects contained in any capital outlay budget act, through
13 unavoidable deficiencies in appropriation, including administrative and legal requirements,
14 the Commissioner of Administration, subject to approval of the Joint Legislative Committee
15 on the Budget, may direct the use of interest earned from the investment of general
16 obligation bond or note proceeds in the Comprehensive Capital Outlay Escrow Account, not
17 to exceed an aggregate of five million dollars in any one fiscal year, for the purpose of
18 completing the projects contained in any capital outlay budget act and such money shall be
19 deemed appropriated in specific amounts necessary for such purpose. All appropriations in
20 this Act which are made as additions to funds for previously authorized projects shall be
21 included, for accounting purposes, in the account of said previously authorized projects. If
22 it is determined by the Director of the Office of Facility Planning and Control, Division of
23 Administration, that it is cost effective and practical to combine individual appropriations,
24 the Commissioner of Administration, subject to the approval of the Joint Legislative
25 Committee on the Budget, may direct that two or more appropriations or parts thereof may
26 be combined into a single project for accounting and audit purposes. The Commissioner of
27 Administration may direct that funding in the various statewide and/or multiple parish
28 projects for improvements for state facilities may be transferred to any project, in this Act
29 or any previous Capital Outlay Act, which require supplemental funding for improvements
30 for state facilities which qualify for funding through the various statewide and/or multiple

1 parish projects for improvements for state facilities. The Office of Facility Planning and
2 Control, Division of Administration is authorized to receive settlements and vendor rebates
3 not in excess of \$50,000 unless approved by the Joint Legislative Committee on the Budget,
4 and to add those receipts to the funding for projects in this Act or any previous Capital
5 Outlay Act for which project funds are received. The Office of Facility Planning and
6 Control, Division of Administration is authorized to receive insurance payments and are
7 hereby authorized to immediately repair facilities that suffer insurance losses without those
8 projects being included in the Act and shall report to the Joint Legislative Committee on the
9 Budget any expenditures from insurance funds received pursuant to this section. A portion,
10 as determined by the Commissioner of Administration and not to exceed one percent (1%),
11 of the funding for projects which qualify for the Percent for Art Program, may be transferred
12 from the qualifying project budgets, to the Department of Culture, Recreation and Tourism
13 for costs of acquiring art and administering the program. For all Percent for Art Program
14 projects in this or any previous capital outlay, up to ten percent (10%) of the aforementioned
15 one percent (1%) may be used for the costs of administering the projects.

16 Section 6. Prior to March 1, 2015, the Commissioner of Administration shall submit
17 to the Legislature a list of projects that are completed and the cash balances remaining in
18 each project.

19 Section 7. The Commissioner of Administration, with the approval of the Joint
20 Legislative Committee on the Budget, is authorized to supplement or substitute the
21 appropriations specified in this or previous capital outlay acts with any federal or other funds
22 which are or may become available and such funds shall be deemed appropriated in specific
23 amounts necessary for the purposes of this Act. Any funds received by the State Bond
24 Commission as a result of a prepayment of reimbursement contracts as authorized by law
25 and the Policy and Procedure for Reimbursement Contracts of the Department of Treasury,
26 Office of State Bond Commission, shall be deposited as set forth in such Policy and
27 Procedure and shall be deemed available and appropriated in specific amounts necessary for
28 the purposes of this Act pursuant to the procedure set forth in this section.

29 Section 8. All of the funds herein appropriated, except for appropriations made to
30 the Department of Military Affairs, the Legislature, the Louisiana Stadium and Exposition

1 District, the Department of Economic Development, the Division of Administration for
2 Supplemental State Funds for Local Government Assistance Program, the Division of
3 Administration for the Community Water Enrichment Program or the Department of
4 Transportation and Development, shall be considered as having been appropriated directly
5 to the Office of Facility Planning and Control, Division of Administration, and all projects
6 herein authorized and funded shall be subject to the provisions of R.S. 39:101 through 128.
7 All of the funds herein appropriated under the name of non-state entities shall be
8 administered by the Office of Facility Planning and Control, Division of Administration,
9 under cooperative endeavor agreements. All cooperative endeavor agreements for non-state
10 entities shall be prepared by the Office of Facility Planning and Control and the
11 Commissioner of Administration is hereby authorized and directed to effectuate any
12 necessary transfer of funds from the Department of Justice to the Office of Facility Planning
13 and Control in order to accomplish this purpose. However, all cooperative endeavor
14 agreements between the Department of Transportation and Development and non-state
15 entities entered into prior to the passage of this Act shall continue to be administered by the
16 Department of Transportation and Development. Cooperative endeavor agreements entered
17 into pursuant to this Act, and approved by the Commissioner of Administration or his
18 designee, or the Secretary of the Department of Transportation and Development for projects
19 appropriated to or administered by the Department of Transportation and Development, shall
20 not be required to be submitted to the Division of Administration, Office of Contractual
21 Review. For all projects in this or any previous Capital Outlay Act appropriated to the
22 Office of Facility Planning and Control, Division of Administration, including those
23 administered by cooperative endeavor agreements, up to six percent of each line-item may
24 be used for costs of administering the projects. For all projects in this or any previous
25 Capital Outlay Act appropriated to the Department of Transportation and Development, up
26 to six percent of each line-item may be used for costs of administering the projects, or for
27 field engineering/construction supervision. Line-item general obligation bond projects
28 appropriated to the Department of Transportation and Development in this or any previous
29 Capital Outlay Act shall be authorized to draw Transportation Trust Funds from the
30 Highway Program appropriation, for supplemental funding on overruns in excess of the

1 original estimated project cost as determined by the Department of Transportation and
2 Development, provided however that said projects are in the state or federal highway system
3 and in the priority program, and the overrun is less than \$50,000. Any such overrun of
4 \$50,000 or more must be approved by the Joint Legislative Committee on the Budget.
5 Furthermore, all ports, levee districts and other non-state entities must have a fully executed
6 cooperative endeavor agreement, from the Office of Facility Planning and Control,
7 Department of Transportation and Development, or the State Treasurer, whichever is
8 appropriate, before entering into any contracts which obligate state funding and must follow
9 all laws pertaining to public bidding. If a port, levee district or other non-state entity enters
10 into a contract prior to receipt of funding, or prior to execution of a cooperative endeavor
11 agreement, then payments under such contracts are prohibited from capital outlay
12 appropriations, and are the sole responsibility of the port, levee district, or other non-state
13 entity. Notwithstanding the provisions of this Section or any other capital outlay act,
14 contracts may be entered into for the Atchafalaya Basin Protection and Enhancement
15 Kemper Williams project in St. Mary Parish prior to a cooperative endeavor agreement being
16 entered into with the state. Notwithstanding anything contained in this or any other capital
17 outlay act, contracts may be entered into for the Natchitoches Industrial Park South project
18 prior to receipt of funding and prior to execution of a cooperative endeavor agreement.
19 Notwithstanding anything contained in this Act to the contrary or any other provision of law,
20 contracts may be entered into for the Livingston Parish Twenty-First District Complex prior
