Proposed Amd.:

Sub. Bill For.:

Date: April 4, 2014	1:23 PM	Author: WILLMOTT
Dept./Agy.: Education		Analyst: Jodi Mauroner
Subject: CPR training in high schools		

CURRICULA

EG NO IMPACT See Note

Page 1 of 1

Requires instruction relative to CPR and automated external defibrillators to be integrated into the curriculum of an existing required course of study in public high schools

The proposed legislation requires the governing authority of each public school to provide instruction to all students in grades 9 through 12 relative to CPR and the use of automated external defibrillators in accordance with the American Heart Association, American Red Cross or other nationally recognized programs. The bill does not require teachers to be a certified trainer of CPR and allows partnerships with emergency medical technicians, paramedics, nurses, firefighters and other licensed and certified individuals to provide instruction. The presence of an automated external defibrillator in the classroom is not required. Further requires the governing authority of each public school to comply with Board of Elementary Secondary Education (BESE) or Department of Education surveys and reports to determine compliance with proposed legislation.

EXPENDITURES	2014-15	2015-16	2016-17	2017-18	2018-19	5 -YEAR TOTAL

Annual Total	\$0	\$0	\$0	\$0	\$0	\$0

EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure. Currently students in grades nine through 12 receive instruction in a required Health Education course and schools may adopt existing free instructional programs or use certified professionals to provide classroom instruction. Furthermore, school governing authorities currently report the status of health and physical education in schools in an annual survey report to the Department of Education.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
