EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

REVENUE EXPLANATION

The proposed legislation would increase funds to the Litter Abatement and Education Account in the Department of Wildlife and Fisheries due to the imposition of fines. As per existing provisions regarding litter, 10% of the fines will be deposited into the account and the remaining revenue generated through the imposition of fines would accrue to local government entities. Funds in the Litter Abatement and Education Account are used for litter abatement and enforcement, public service announcements, environmental education and other similar uses. The FY 13 year-end fund balance of the account was approximately \$70,000.
