 Opp. Chamb. Action:
 Proposed Amd.:
 Sub. Bill For.:

Date: May 20, 2015 6:54 AM	Author: ADLEY
Dept./Agy.: Environmental Quality	
Subject: Increases Underground Tank Amount from \$1M to \$1.5M	Analyst: Charley Rome

FUNDS/FUNDING EG +\$575,000 SD EX See Note Page 1 of 1

Increases the available monies expended from the Motor Fuel Underground Storage Tank Trust Fund from one million dollars to one million five hundred thousand dollars. (8/1/15)

Present law provides that monies expended from the Motor Fuel Underground Storage Tank Trust Fund for certain approved costs will be spent only up to such sums as necessary to satisfy certain federal requirements or one million dollars per accidental release (spill), whichever is greater.

Proposed law changes the sum from one million dollars per site to one million five hundred thousand dollars per accidental release (spill).

Effective August 1, 2015.

EXPENDITURE EXPLANATION

The bill will allow increased expenditures from the Motor Fuel Underground Storage Tank Trust Fund (MFTF) by the following estimated amounts per year: FY16 \$575,000, FY17 \$1,150,000, FY18 \$1,725,000, FY19 \$2,300,000, and FY20 \$2,875,000. The MFTF helps underground storage tank (UST) owners, operators, or responsible parties (owners) meet the financial costs incurred during the rehabilitation and remediation of affected soils, groundwater and surface waters at motor fuel contaminated UST sites. The Louisiana Department of Environmental Quality (LDEQ) anticipates that UST owners will utilize some of the additional funds to expedite the remediation activities at some sites by using more expensive technologies to reduce the time to clean up sites. The highest potential for these enhanced (higher cost) technologies are Groundwater 1 (GW1) classifications having the most stringent remediation cleanup criteria. LDEQ estimates that there are 65 GW1 groundwater classification sites statewide, and these enhanced technologies could potentially increase the average annual cost by approximately \$25,000 per GW1 site over the next five years. LDEQ projects that the 65 GW1 sites in the state would increase their costs by 10% each year with the adoption of enhanced technology with the following additional costs per year: FY16 \$325,000, FY17 \$650,000, FY18 \$975,000, FY19 \$1.3M, and FY20 \$1.625M.

Additionally, there are 28 sites within \$250,000 of the current \$1,000,000 maximum, that could potentially exceed the current \$1M limit per the proposed legislation. LDEQ projects that 5 of these sites per year will exceed the \$1M limit by \$50,000 per site over the next five years, resulting in the following costs per year: FY16 \$250,000 for 5 sites, FY17 \$500,000 for 10 sites, FY18 \$750,000 for 15 sites, FY19 \$1M for 20 sites, and FY20 \$1.25M for 25 sites.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
