Subject: NEMT furnished by or through mental diseases institution		

MEDICAID OR NO IMPACT See Note Page 1 of 1
Provides relative to nonemergency medical transportation for individuals with mental illness

Present law provides for definitions relative to nonemergency medical transportation (NEMT). Proposed law defines institution for mental diseases transportation service as NEMT services furnished by or through an institution for mental disease to a Medicaid beneficiary. This includes transportation to the institution upon admission or from the institution upon discharge. Proposed law provides for an institution for mental disease to furnish institution for mental disease transportation service vehicles. Proposed law provides that an institution for mental disease transportation services shall be reimbursed at the same base and mileage rates and in the same manner as applicable to NEMT services under the Medicaid fee schedule in effect on the date of service. Proposed law prohibits the institution for mental disease transportation services from being arranged, authorized, scheduled, or paid through the LA Medicaid's NEMT brokerage program, a Medicaid transportation broker, third-party administrator, or any successor entity. Proposed law provides for the LDH to establish minimum standards to ensure patient safety. Proposed law does not exempt an institution for mental disease, its agents, or its drivers from complying with applicable state and federal requirements. Proposed law prohibits an institution for mental disease transportation service from being reimbursed for non-psychiatric treatment transportation. Proposed law provides for an effective date of 7/01/2026.

EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

Louisiana Department of Health (LDH) indicates that the proposed law has no expenditure impact. This legislation authorizes an institution for mental disease to provide non-emergency medical transportation services to Medicaid beneficiaries without using Medicaid fee-for-service or managed care organization transportation brokers. It further provides that an institution for mental disease transportation services shall be reimbursed at the same base and mileage rates and in the same manner as otherwise applicable to non-emergency medical transportation services under the Medicaid fee schedule in effect on the date of service. Because reimbursement for these services remains the same as currently on the Medicaid fee schedule, this legislation has no fiscal impact.
