<b>Subject:</b> emergency departments		

HEALTH CARE OR NO IMPACT See Note  
Provides relative to emergency departments. (8/1/19)

Proposed law prevents freestanding emergency departments in Louisiana, unless licensed by the department as a part of a hospital under the Hospital Licensing Law (R.S. 40:2100), either as a part of the hospital's main campus or as a separate off site campus of an existing licensed hospital.

Proposed law further prevents the Louisiana Department of Health from issuing a license to any off-site campus emergency department if the emergency department is within the primary service area of a rural hospital (primary service area as defined in R.S. 37:1307(6)).

**EXPENDITURE EXPLANATION**

There is no anticipated direct material effect on expenditures of the Louisiana Department of Health (LDH), Health Standards section as a result of this measure.

**REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure. LDH does not currently license free standing emergency departments. Furthermore, preventing licensure for off site campus emergency departments that fall within a rural hospital primary service area will not reduce current licensing revenues generated by the department. Information provided by LDH indicates there are no current off-site emergency departments that fall within a rural hospital primary services area area (as defined in R.S. 37:1307(6)).
