Prohibits lifetime and annual limits on health insurance benefits

Proposed law requires all health coverage plans issued for delivery, delivered, renewed, or otherwise contracted for after January 1, 2020, to provide coverage without lifetime or annual limits on the dollar amount of benefits for individuals. Proposed law applies only to the following: included among covered benefits of the base-benchmark plan selected for Louisiana for calendar year 2019; or required as a state mandated health benefit pursuant to the LA Insurance Code. Proposed law does not apply to plans meeting the following criteria: if it is an individual plan offered in the individual market; covers only individuals who have been continuously covered by the plan since March 23, 2010; and is a qualified grandfathered health plan pursuant to the Code of Federal Regulations. Proposed law provides that it shall not be interpreted to require any health coverage plan to include particular covered benefits. Proposed law does not apply to limited health benefit policies. Proposed law clarifies that present law regarding guaranteed renewability of coverage shall only apply if the Patient Protection and Affordable Care Act is repealed or ruled unenforceable. Proposed law defines “health coverage plan.”

EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure. The Office of Group Benefits reports that it does not have lifetime or annual dollar limits for insured persons. Furthermore, the LA Dept. of Insurance reports that proposed law will have a negligible effect on the private insurance market, as a majority of health insurance companies operating in Louisiana abolished annual and lifetime coverage limits prior to passage of the Affordable Care Act.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
