Bill Header: RETIREMENT SYSTEMS: Provides for state and statewide retirement systems.

Cost Summary:

The estimated net actuarial and fiscal impact of this proposed legislation on the retirement systems and their plan sponsors is summarized below. Net actuarial costs pertain to estimated changes in the *net actuarial present value of future benefit payments and administrative expenses incurred by the retirement system*. Net fiscal costs or savings pertain to changes to all cash flows over the next five year period including retirement system cash flows, OPEB cash flows, or cash flows related to local and state government entities.

An increase in actuarial costs is denoted throughout the actuarial note by “Increase” or a positive number. Actuarial savings are denoted by “Decrease” or a negative number. An increase in expenditures or revenues (fiscal impact) is denoted by “Increase” or a positive number. A decrease in expenditures or revenues is denoted by “Decrease” or a negative number.

Estimated Actuarial Impact:

The top part of the following chart shows the estimated change in the *net actuarial present value of future benefit payments and expenses*, if any, attributable to the proposed legislation. The bottom part shows the effect on cash flows (i.e., contributions, benefit payments, and administrative expenses).

Bill Information

Current Law

Current law permits each of the chairmen of the House and Senate Committees on retirement to authorize legislative staff members to attend any executive session of any board or committee meeting of any state or statewide retirement system.

Current law also requires the authorization to be in writing, to specifically name the authorized staff, and to be submitted to the director of the board whose executive sessions staff will be attending. The written authorization is valid for one calendar year from the date of submission.

Proposed Law

SB 19 permits the member appointed to each board from the House Committee on Retirement, instead of the chairman of the House Committee on Retirement, to authorize legislative staff members to attend executive session. It also limits the legislator to authorize staff to attend executive sessions only of a board of which the legislator is a member.

SB 19 also changes the time period of the written authorization from one calendar year to the duration of the authorizing legislator’s membership on the board.

Implications of the Proposed Changes

SB 19 changes the person who can authorize staff to attend executive sessions from the chairman of the House Committee on Retirement to the member appointed to each board from the House Committee on Retirement. The time period of a written authorization is also changed from one calendar year to the duration of the authorizing legislator’s membership on the board.

ACTUARIAL NOTE SB 19**

I. ACTUARIAL IMPACT ON RETIREMENT SYSTEMS AND OPEB [Completed by LLA]

**A. Analysis of Net Actuarial Costs
(Prepared by LLA)**

This section of the actuarial note pertains to net actuarial costs or savings associated with the retirement systems and with OPEB.

1. Retirement Systems

The net actuarial cost or savings of the proposed legislation associated with the retirement systems is estimated to be \$0. The actuary's analysis is summarized below.

SB 19 changes the person who can authorize staff to attend executive sessions and the duration of such authorization. There are no changes to other provisions of the systems and no changes to per diem expenses, and therefore, the proposed bill does not have any effect on the actuarial cost of the systems.

2. Other Post-employment Benefits (OPEB)

The net actuarial cost or savings of the proposed legislation associated with OPEB, including retiree health insurance premiums, is estimated to be \$0. The actuary's analysis is summarized below.

The liability for post-retirement medical insurance subsidies provided to retirees by the Office of Group Benefits or other insurers is not affected by a change in the person authorizing legislative staff to attend executive sessions or by a change in the duration of such authorization.

**B. Actuarial Data, Methods and Assumptions
(Prepared by LLA)**

Unless indicated otherwise, the actuarial note for the proposed legislation was prepared using actuarial data, methods, and assumptions as disclosed in the most recent actuarial valuation report adopted by the Public Retirement Systems' Actuarial Committee (PRSAC). The data, methods and assumptions are being used to provide consistency with the actuary for the retirement system who may also be providing testimony to the Senate and House retirement committees. With certain exceptions, the actuary for the LLA finds the assumptions used by the retirement systems and PRSAC to be reasonable.

**C. Actuarial Caveat
(Prepared by LLA)**

There is nothing in the proposed legislation that will compromise the signing actuary's ability to present an unbiased statement of actuarial opinion.

II. FISCAL IMPACT ON RETIREMENT SYSTEMS AND OPEB [Completed by LLA]

This section of the actuarial note pertains to fiscal (annual) costs or savings associated with the retirement systems (Table A) and with OPEB (Table B). Fiscal costs or savings in Table A include benefit-related actuarial costs and administrative costs incurred by the retirement systems.

**A. Estimated Fiscal Impact – Retirement Systems
(Prepared by LLA)**

1. Narrative

Table A shows the estimated fiscal impact of the proposed legislation on the retirement systems and the government entities that sponsor them. A fiscal cost is denoted by "Increase" or a positive number. Fiscal savings are denoted by "Decrease" or a negative number. A revenue increase is denoted by "Increase" or a positive number. A revenue decrease is denoted by "Decrease" or a negative number.

Actuarial Disclosure: Risks Associated with Measuring Costs

This Actuarial Note is an actuarial communication, and is required to include certain disclosures in compliance with Actuarial Standards of Practice (ASOP) No. 51. Risk disclosures otherwise required by ASOP No. 51 do not apply to this Actuarial Note because the proposed bill does not significantly change the types or levels of risks of the retirement system.

**2020 REGULAR SESSION
ACTUARIAL NOTE SB 19**

Information Pertaining to Article (10)(29(F) of the Louisiana Constitution

SB 19 contains a retirement system benefit provision having an actuarial cost.

No member of any Louisiana state or statewide retirement system would receive a larger benefit with the enactment of SB 19 than what he would have received without SB 19.
