EXPENDITURE EXPLANATION

In its current posture, there is no anticipated direct material effect on governmental expenditures as a result of this measure. Proposed law creates the Bar Assistance Relief Program within the Main Street Program and the Bar Assistance Relief Subaccount within the La. Main Street Recovery Fund. Proposed law provides that eligible businesses operating as a bar, brewery, or commercial fisherman shall receive a grant equal to \$2,000, but does not provide for a transfer of monies into the subaccount. As such, no expenditures will be incurred by enactment of proposed law until the legislature takes action to appropriate monies into the subaccount.

Once monies have been deposited into the Bar Assistance Relief Subaccount, proposed law will result in an indeterminable increase in expenditures for the following departments/agencies.

The La Department of Treasury will be required to administer the program to provide grants of up to \$2,000 to eligible bars (paid from the statutory dedication subaccount). Proposed law provides that all monies in the bar subaccount after payment of administrative expenses shall be appropriated as grants. The Treasury reports that it does not anticipate additional costs to implement the provisions of proposed law, but will evaluate the scope of the program once collecting all relevant data. The treasurer is also directed to provide monthly reports to the Joint Legislative Committee on the Budget (JLCB).

Notwithstanding any provision of law to the contrary, the Office of Alcohol and Tobacco Control (ATC) shall provide a list of qualifying bars to the treasurer at no cost. Likewise, the LA Department of Wildlife and Fisheries shall provide a list of qualifying commercial fishermen to the treasurer at no cost. These requirements will result in a minor workload increase and may generate de minimis expenditures related to producing the report (SGR and/or statutory dedications) and potentially creating data sharing agreements with the treasurer to ensure confidentiality of records. Both departments report they will not have access to information as to whether a business has received financial relief from other sources.

The Commissioner of Administration shall be provided a notice of the Bar Assistance Relief Program and the availability of awards from the bar subaccount to be published on the web pages of each department in the executive branch.

The Louisiana Legislature shall receive and include the same notice referenced above for the Commissioner on its web page.

REVENUE EXPLANATION
