## DIGEST OF THE SENATE BILL AS RETURNED TO THE SENATE

SB 44 Engrossed

2023 Regular Session

Pope

Present law allows for the secretary or his designee, when they believe expedient, to designate adequate shoulders on any highway in the state highway system as high-occupancy vehicle (HOV) lanes.

Proposed law provides for the removal of the requirement of the secretary to factor in appropriate travel time savings and increase in the total number of people moved through a highway corridor with high levels of travel demand and traffic congestion, when designating a shoulder as an HOV lane.

Present law provides for the definition of HOV. Proposed law retains present law and removes the term ridesharing from the definition. Proposed law further makes technical changes.

Present law defines HOV lane. Proposed law further defines HOV lane to include adequate shoulders of lanes designated for use as HOV lanes by the secretary or designee. Proposed law further makes technical changes. Proposed law adds to the definition of vehicles able to use an HOV lane to include an authorized emergency vehicle, or any other vehicle operated by the department or its agents as authorized by the secretary through promulgated rules and regulations.

Present law provides the department shall promulgate rules and regulations related to enforcement and penalties of the HOV lanes. Proposed law adds authorized use to the scope of rulemaking authority granted to the department.

Proposed law renames a portion of La. Highway 38 in Tangipahoa Parish and provides for DOTD to erect and maintain signage provided local or private monies are received by the department.

Proposed law makes technical changes.

Effective upon signature of the governor or lapse of time for gubernatorial action.
