EXPENDITURE EXPLANATION

Information provided by LDH indicates the provider assessment revenues generated from this measure will be utilized as a state match source for ambulance provider rates.

REVENUE EXPLANATION

Proposed law amends the current provider fee on emergency ground ambulance providers by 1) removing the assessment on non emergency ground ambulance providers, and 2) by expanding the existing tax base by including additional taxable services on emergency ground ambulance providers. This measure specifically allows for the inclusion of Medicaid services revenues (\$109.9 M net operating revenues) in the provider services tax base for emergency ground ambulance providers, which are currently excluded from the tax base. Expanding the taxable base may result in up to \$6,596,856 in additional statutory dedication revenue annually (6% maximum tax on the additional net operating revenues). The actual assessment percentage fee is determined at the discretion of the secretary.

Note: Removing non-emergency services from the tax has no fiscal impact, as the department indicates this provision is not authorized by the Centers for Medicare and Medicaid Services (CMS).
