INCREASE

The proposed legislation will increase SGF costs for the TOPS Scholarship Program administered by the Office of Student Financial Assistance (LOSFA) resulting primarily from students qualifying for higher tier TOPS award levels and secondarily from the potential of added students that become eligible and choose to utilize a TOPS award. Based on the ACT scores and relative TOPS eligibility of home study students from the last five years averaged and factored against the average TOPS award amounts across institutions, it is possible these costs could be as much as \$125,856 should all students who qualify for eligibile students who in turn actually choose to enroll and receive a TOPS award is on average 81.4%, based on the last five years of data. Considering this yield, the potential cost lowers to \$102,446. The actual amount needed will vary from year-to-year based on the number of student awards, which institution the student enrolls, and the award levels qualified. See page two for more detail on the calculations referenced above.

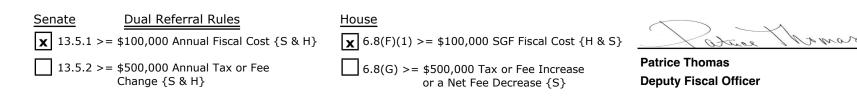

Current enrollment data shows K-12 students enrolled in approved home study programs trending higher over the last five years and will likely factor into the increased costs associated with the proposed legislation. For purposes of this fiscal note, a 4.53% increase in costs is factored into the year-over-year change, based on the average annual change in home study enrollment seen below.

	2018	<u>2019</u>	2020	<u>2021</u>	<u>2022</u>	<u>2023</u>	<u>Avg.</u>
Number Enrolled	13,708	13,672	15,107	16,134	16,317	17,049	15,656
Change previous year		-36	1,435	1,027	183	732	668
% change from prev. y	ear	-0.26%	10.50%	6.80%	1.13%	4.49%	4.53%

## Additional calculations continued on page 2.

## **REVENUE EXPLANATION**

There will be an increase in SGR revenues at postsecondary institutions due to enrollment of additional students who now qualify for a TOPS award or a higher tier award as a result of this measure.
