## DIGEST 2024 Regular Session

Talbot

<u>Present law</u> (R.S. 9:2800.27(B)) provides that in cases where a claimant's medical expenses have been paid, in whole or in part, by a health insurance issuer or Medicare to a contracted medical provider, the claimant's recovery of medical expenses is limited to the amount actually paid to the contracted medical provider by the health insurance issuer or Medicare, and any applicable cost sharing amounts paid or owed by the claimant, and not the amount billed.

<u>Present law</u> provides that the court shall award to the claimant 40% of the difference between the amount billed and the amount actually paid to the contracted medical provider by a health insurance issuer or Medicare in consideration of the claimant's cost of procurement, provided that this amount shall be reduced if the defendant proves that the recovery of the cost of procurement would make the award unreasonable.

<u>Proposed law</u> retains <u>present law</u> but deletes the requirement that the court shall award claimant 40% of the difference between the amount billed and the amount actually paid to the contracted medical provider by a health insurance issuer or Medicare.

Effective August 1, 2024.
