shall be the actual appropriations from the state general fund and dedicated funds for that year except funds allocated by Article VII, Section 4, Paragraphs (D) and (E). For subsequent fiscal years, the limit shall not exceed the expenditure limit for the current fiscal year plus an amount equal to that limit times a positive growth factor. The growth factor is the average annual percentage rate of change of personal income for Louisiana as defined and reported by the United States Department of Commerce for the three calendar years prior to the fiscal year for which the limit is calculated.

(2) (b) The expenditure limit may be changed in any fiscal year by a favorable vote of two-thirds of the elected members of each house. Any such change in the expenditure limit shall be approved by passage of a specific legislative instrument which clearly states the intent to change the limit.

(3)(c) Beginning with the 1995-1996 Fiscal Year, the expenditure limit shall be determined in accordance with the provisions of Paragraph (J) of this Section. The redetermination of the expenditure limit for each fiscal year from the 1991-1992 Fiscal Year through the 1994-1995 Fiscal Year shall only be used in computing the expenditure limit for the 1995-1996 Fiscal Year and shall not affect the expenditure limit already computed in accordance with this Paragraph for such fiscal years.

(4) The provisions of this Paragraph shall not apply to or affect funds allocated by Article VII, Section 4, Paragraphs (D) and (E).

(2) Government Growth Limit. (a) Beginning with a limit for the 2025-2026 fiscal year, there shall be a limit for each fiscal year above which appropriation of recurring revenue from the state general fund and dedicated funds can only be made for the purposes provided in this Subparagraph. Such limit shall be known as the Government Growth Limit and shall be established by the Revenue Estimating Conference no later than the first quarter of the calendar year for the next fiscal year. The legislature shall establish procedures by law for the calculation of such limit.

(b) Notwithstanding any provision of this Subparagraph, if the Government Growth Limit calculated for any fiscal year exceeds the expenditure limit calculated for the same fiscal year, the Government Growth Limit shall be set equal to the expenditure limit. If the legislature alters the expenditure limit in a fiscal year and the resulting limit is lower than the Government Growth Limit for that fiscal year, the Government Growth Limit for that fiscal year shall automatically be lowered to equal the limit set by the legislature for the expenditure limit.

(c) Recurring revenue amounts recognized in the official forecast above the Government Growth Limit and below the expenditure limit may be appropriated only for nonrecurring expenses. For the purposes of this Item, the term "nonrecurring expense" means an expense that is not of a continuing or recurring character and that in the normal course of administration is not expected to be necessary in approximately the same amounts each year.

(d) The limit calculated pursuant to the provisions of this Subparagraph shall not apply to the appropriation of funds from the Budget Stabilization Fund incorporated into the official forecast for the current fiscal year.

(e) A Government Growth Limit may be changed by a favorable vote of
two-thirds of the elected members of each house of the legislature if each of the
growth factors for any of the three fiscal years immediately preceding the year to be
changed was two and one-half percent or less. Any change in the Government
Growth Limit authorized by this Subsubparagraph shall be approved by passage of
a specific legislative instrument which clearly states the intent to change the limit.
(3) The provisions of this Paragraph shall not apply to or affect funds

- allocated by Article VII, Section 8, Paragraphs (B) and (C)."
