REVENUE DEPARTMENTRE DECREASE GF RV See NotePage 1 of 2

Provides relative to various tax administration functions of the Department of Revenue

Current law authorizes the state to charge interest on unpaid taxes and interest paid on refunds at various rates and deadlines. Proposed law repeals interest on refunds to Direct Pay Numbers if sale is exempt, and changes the timing and rate of severance tax refunds for horizontal and deep water wells.

Current law sources sales tax transactions when possession transfers. Proposed law provides an exception for drop shipment sales in which the sourcing occurs at the first of the title transfer or transfer of possession.

Current law authorizes the Office of Debt Recovery to access gaming winnings to collect delinquent debt. Proposed law adds sports wagering to the list of eligible gaming winnings that may be accessed.

Proposed law removes obsolete language and amends several reporting requirements, including eliminating the parish and NAICS breakdowns in the Tax Exemption Budget as well as required committee hearings.

Effective upon signature, except interest changes, which are effective July 1, 2025

**EXPENDITURE EXPLANATION**  
According to LDR, the requirements of the bill can be accommodated within the existing budget, including expansion of an annual ROI report to include return and ranking of all tax incentives in the state with a revenue loss of \$1 M or more, regardless of the administrating agency. LED is currently tasked with ROI reports for the same incentives and will redirect any resources that may have previously been committed to the mandatory tax incentive ROI reports to other duties within the agency. Interest paid by the state is not appropriated, thus rate changes will not impact expenditures.

**REVENUE EXPLANATION**  
**INTEREST RATE and Applicability Changes - Effective July 1, 2025**

The bill impacts interest in 2 ways:

1) Repeals interest paid by the state on sales tax refunds claimed by taxpayers with a Direct Payment Number on exempt purchases, which could increase SGF revenue by about \$500,000 annually.

2) Changes interest paid by the state on refunds from horizontal and deep water wells (normally from the 24 month exemption) from 4.35% for 180 days with judicial interest plus 3% thereafter to 0% for 90 days with judicial interest plus 3% thereafter, which is the same as a regular refund. The impact will depend upon the timing and amount of the refund claims as the state will still pay interest but under a different structure. These refunds are apparently typically related to the severance exemption in place for the shorter of 24 months or payout, where operators choose to pay severance until the actual exemption can be calculated, potentially accruing interest over many months. Any severance refunds owed by the state for more than 4 months will apparently accrue slightly more interest under the bill which implies a potential negative but immeasurable impact to SGF revenue as timing of future refunds is indeterminable.

**DROP SHIPMENT SALES - Effective retroactively upon signature**  
Drop shipment sales could be sourced outside the state with language adopted during the 2024 Third Extraordinary Session. A drop shipment sale is a sale in which the seller takes the order from the buyer but a third party ships the good directly to the buyer. While most sales are sourced at the transfer of possession, the bill excepts the sourcing of drop shipment sales to the earlier of the transfer of title or the transfer of possession allowing sales in which only the title transfers in Louisiana to be sourced in the state. The bill reinstates within the same fiscal year a practice that has been in place for many years. There will be an indeterminable increase in SGF revenue as the official forecast is bound by current law, and this bill retroactively alters the sourcing of certain sales taxable transactions. Locals may not source these sales in the same manner

CONTINUED EXPLANATION from page one: Page 2 of 2

Revenue Explanation (continued)

leaving local impact unknown. It is not clear how this language may change the sourcing of sales through marketplace facilitators, which may or may not have a significant impact to state and local revenue. A portion of revenue generated from Procurement Processing Companies drop shipment sales is dedicated to the Unfunded Accrued Liability Fund, which is where any increase in revenue would occur.

OFFICE OF DEBT RECOVERY Access to Sports Bet Winnings - Effective upon signature

The bill authorizes access to sports bet winnings to recover debts referred to ODR in the same manner as other gaming winnings. To the extent that enforcement of debt recovery requires the state to access sports bet winnings after extinguishing all other means to recover the debt, ODR could collect an indeterminable amount of additional fees and funds to be distributed accordingly.

OTHER PROVISIONS - Effective upon signature

Other provisions of the bill repeal and adjust certain reporting requirements and repeal obsolete language that will not impact state or local revenue. Removal of parish and NAICS breakdowns from Tax Exemption Budget reporting are not expected to materially impact analytical capabilities, particularly as LDR reports that the information will continue to be available by request. Repealing mandatory, pre-fiscal session hearings in the tax committees for exemptions of \$10 M or more does not preclude the committees from requiring the same as an ad hoc review. The bill requires LDR to provide an annual Return on Investment analysis and ranking of all tax incentives with a revenue loss of \$1 M or more, regardless of administrating agency. The report will be required in addition to the tax incentive forecast presented by LDR at each REC meeting.
