HOUSE CONCURRENT RESOLUTION NO. 64

BY REPRESENTATIVE ECHOLS

ENERGY PRODUCTION: Urges and requests the Department of Energy and Natural Resources and the Public Service Commission to research and implement nuclear energy generation within the state

1 A CONCURRENT RESOLUTION

2 To urge and request the Department of Energy and Natural Resources and the Public Service
3 Commission to study the legality and feasibility of utilizing nuclear energy in the
4 state of Louisiana.

5 WHEREAS, Louisiana recognizes the need to develop diverse and reliable energy
6 sources; and

7 WHEREAS, nuclear energy technology has improved within recent years, thereby
8 making it safer and more efficient; and

9 WHEREAS, states throughout the country are developing nuclear energy programs
10 to improve their grid reliability; and

11 WHEREAS, the United States Department of Energy and the Nuclear Regulatory
12 Commission are working to streamline the regulatory process for new reactor technologies;
13 and

14 WHEREAS, the demand for reliable, affordable energy continues to increase
15 significantly each year; and

16 WHEREAS, nuclear energy is the world's second largest source of low emissions
17 electricity after hydropower; and

18 WHEREAS, research and development efforts are focused on improving nuclear
19 waste management, including solutions for safely storing and disposing of spent fuel and
20 developing methods for recycling or transforming radioactive materials; and

1 WHEREAS, nuclear energy is a well established and underutilized technology that
2 is making a comeback with increased investment, technological advances, and supportive
3 policies throughout the country and the world.

4 THEREFORE, BE IT RESOLVED that the Legislature of Louisiana does hereby
5 urge and request the Department of Energy and Natural Resources and the Public Service
6 Commission to research ways to increase nuclear energy generation within the state.

7 BE IT FURTHER RESOLVED that Department of Energy and Natural Resources
8 and the Public Service Commission should consider the advantages and disadvantages of
9 nuclear energy generation in this state including the economic and environmental impacts,
10 the impacts on the workforce for constructing and staffing nuclear energy generation
11 facilities, and evaluations and recommendations on the following:

- 12 (1) Site characteristics and industrial uses.
- 13 (2) Environmental and ecological impacts.
- 14 (3) Safety criteria.
- 15 (4) Local and state tax impacts.
- 16 (5) Job creation.

17 BE IT FURTHER RESOLVED that a copy of this Resolution be transmitted to the
18 secretary of the Department of Energy and Natural Resources and to the chairman of the
19 Public Service Commission.
