## **EXPENDITURE EXPLANATION**

Proposed law may result in an indeterminable increase in SGF expenditures in the Department of Public Safety and Corrections – Corrections Services (DPS&C – CS) if a person is convicted of knowingly and with the intent to defraud, possessing 15 or more counterfeit or misappropriated access devices. Proposed law has the impact of expanding the circumstances under which a person can be convicted under current law. Proposed law is a relative felony, and any impact on either state or local expenditures is contingent on whether persons sustain either misdemeanor or felony-grade convictions for its violation. The exact fiscal impact of this legislation to state and local governing authorities is indeterminable, since it is not known how many people will be convicted, nor the length of the sentences assessed as a result of its potential enactment. Moreover, the sentences of imprisonment for conviction of the proposed law are optional and contingent upon the value of items misappropriated or taken by those convicted.

To the extent that offenders sustain a felony-grade conviction for violation of the <u>proposed law</u>, DPS&C-CS will sustain an indeterminable increase in expenditures. For those convicted, sentenced, and then subsequently housed in a state facility, DPS&C-CS will sustain expenditures of \$107.60 per offender per day. For those housed in local facilities, DPS&C-CS will sustain expenditures of \$26.39 per offender per day. DPS&C-CS advises that impacts on offender populations are anticipated to impact the number of offenders held in local facilities, and that in managing its offender population, it seeks to fill all beds in state facilities first, then assigns overflow offenders to local facilities.

To the extent that offenders sustain a misdemeanor conviction for violation of the <u>proposed law</u>, local governing authorities will sustain Local Funds expenditures. The exact fiscal impact of the passage of this legislation to local governing authorities is indeterminable, since it is not known how many people will be convicted and incarcerated in local facilities, nor the length of the sentences assessed with those convictions as a result of its potential enactment.

## **REVENUE EXPLANATION**

<u>Proposed law</u> may result in an indeterminable increase in local revenues as a result of convictions of knowingly and with the intent to defraud, possessing 15 or more counterfeit or misappropriated access devices. The exact fiscal impact of the passage of this legislation on local revenue is indeterminable because the fines that would be imposed on those convicted are optional, and the amount of the fines, if imposed, may vary. The potential revenue will accrue to the local governing authority.
