Removes the requirement that taxi cab drivers obtain a chauffeur's license	

Page 1 of 1

Proposed law removes the Class “D” chauffeur’s license requirement for taxi cab drivers. Proposed law clarifies that taxi cab drivers only need to comply with the requirements for a Class “E” driver’s license.

EXPENDITURE EXPLANATION

EXPENDITURE EXPLANATION
There is no anticipated direct material effect on governmental expenditures as a result of this measure. Proposed law would require the Office of Motor Vehicles to remove the Class "D" chauffeur's license requirement for taxi cab drivers. The agency indicates no programming changes will be needed.

REVENUE EXPLANATION

REVENUE EXPLANATION
Proposed law will reduce SGR and Statutory Dedications revenues generated from Class "D" driver's licenses. Proposed law removes the Class "D" chauffeur's license requirement for taxi cab drivers. According to the Office of Motor Vehicles (OMV), 150,734 people hold a Class "D" driver's license as of 4/08/25. Currently, Class "D" driver's licenses cost \$54.75 and Class "E" license costs \$32.25. Proposed law would allow taxi cab drivers to only purchase a Class "E" license, meaning for each cab in the state OMV would lose \$22.50 in revenue. The OMV does not track how many Taxi cab drivers are in the state, and is unable to determine the revenue impact.

Note: Portions of Class "D" license revenue are allocated to the Litter Abatement Fund (\$1.50) and the Louisiana State Police Retirement System Fund (\$11.15) per license. Class "E" license revenue is distributed similarly, but with only \$5.63 going into the Louisiana State Police Retirement System Fund, resulting in \$5.52 less per taxi cab in the state.
