

2025 Regular Session

HOUSE RESOLUTION NO. 311

BY REPRESENTATIVES AMEDEE, ADAMS, BACALA, BAYHAM, BUTLER,
COATES, CREWS, MCCORMICK, OWEN, SCHAMERHORN, AND WALTERS

A RESOLUTION

To urge and request the Louisiana State Board of Medical Examiners and Louisiana Department of Health to conduct an assessment of reproductive health practices and submit a report of their findings no later than June 30, 2026.

WHEREAS, reproductive health conditions are the leading causes of infertility, which affects fifteen to sixteen percent of couples in the United States. Such conditions include endometriosis, adenomyosis, polycystic ovary syndrome, uterine fibroids, blocked fallopian tubes, hormone imbalances, hyperprolactinemia, thyroid conditions, ovulation dysfunctions, and other health conditions; and

WHEREAS, there is a growing interest among women to proactively assess their overall health and understand how factors such as age and medical history contribute to reproductive health and fertility; and

WHEREAS, restorative reproductive medicine (RRM) is a holistic approach to reproductive health that focuses on identifying and treating the underlying causes of reproductive dysfunction, rather than merely addressing symptoms; and

WHEREAS, RRM incorporates various methods, including fertility awareness methods (FAMs), lifestyle adjustments, and medical treatments, to support natural conception and healthy pregnancies; and

WHEREAS, women are worthy of the highest standard of medical care, including the opportunity to assess, understand, and improve their reproductive health. Unfortunately, many women do not receive adequate information about their reproductive health and do not have access to restorative reproductive approaches; and

WHEREAS, it would be helpful to expand and promote data collection on reproductive health conditions; and

WHEREAS, it would be helpful to identify the availability and utilization of restorative reproductive treatments.

THEREFORE, BE IT RESOLVED that the House of Representatives of the Legislature of Louisiana does hereby urge and request the Louisiana State Board of Medical Examiners and the Louisiana Department of Health to assess the resources available for women to be aware and access restorative reproductive practices and provide a report by June 30, 2026, to the House and Senate Health and Welfare committees.

BE IT FURTHER RESOLVED that a copy of this Resolution be transmitted to the secretary of the Louisiana Department of Health and the executive director of the Louisiana State Board of Medical Examiners.

SPEAKER OF THE HOUSE OF REPRESENTATIVES
