

RÉSUMÉ DIGEST

ACT 282 (HB 477)

2025 Regular Session

Freiberg

Existing law authorizes an income tax credit for donations a taxpayer makes during a taxable year to a school tuition organization (STO) that provides scholarships to qualified students to attend a qualified school. In order to qualify for the credit, the donation shall be made by a taxpayer who is required to file a La. income tax return. The amount of the credit shall be equal to the actual amount of the taxpayer's donation used by an STO to fund a scholarship to a qualified student, which shall not include administrative costs.

Existing law authorizes the credit to be used in addition to any federal tax credit or deduction earned for the same donation. However, a taxpayer shall not receive any other state tax benefit for which the taxpayer has received a tax credit pursuant to existing law. Further provides that if the amount of the tax credit exceeds the total tax liability of the taxpayer in the taxable year, the amount of the credit not used as an offset against tax liability may be carried forward as a credit against subsequent income tax liabilities for a period not to exceed three taxable years.

Existing law defines a "qualified student" as a child who is a member of a family that resides in La. with a total household income that does not exceed 250% of the federal poverty level and who is a student entering kindergarten for the first time, a student who attended a public school the previous year, or a student who received a scholarship from an STO or the Student Scholarships for Educational Excellence Program for the previous school year.

Existing law defines a "qualified school" as a nonpublic elementary or secondary school in this state which is approved, provisionally approved, or probationally approved by the Board of Elementary and Secondary Education and which complies with the criteria set forth in *Brumfield, et al. v. Dodd, et al.*, 425 F. Supp 528. Existing law requires qualified schools to conduct criminal background checks on their employees and to exclude from employment any person not permitted by state law to work in a nonpublic school.

New law adds within the definition of "qualified school" a public elementary or secondary laboratory school operated by a public college or university in this state and extends the requirement for qualified schools to conduct criminal background checks on their employees to a public elementary or secondary laboratory school operated by a public college or university.

New law is applicable to donations made to an STO which provides scholarships to qualified students to attend a qualified school for the 2026-2027 school year and thereafter.

Effective January 1, 2026.

(Amends R.S. 47:6301(B)(1)(a) and (2)(a)(intro. para.) and (i))
