HB 467 Original

2026 Regular Session

Freeman

Abstract: Provides relative to the construction of a roof in a parish in the coastal zone boundary.

Present law provides for requirements and prohibitions for the State Uniform Construction Code.

Proposed law retains requirements and prohibitions in present law and adds that for an entirety of a parish located, in whole or in part, in the coastal zone boundary, designated by present law, residential structures, built on or after January 1, 2027, are required to be built with a roof that meets the latest fortified roof building standards of the Insurance Institute for Business and Home Safety and are inspected such that the residential structure receives a certified fortified roof designation from the Insurance Institute for Business and Home Safety.
