ACTUARIAL NOTE**

Senate Bill 477 SLS 26RS-168	Date: April 6, 2026
Original	Organizations Affected: LASERS
Author: Price	
LLA Note SB 477.01	OR INCREASE APV

Bill Header: STATE EMPLOYEE RET: Provides relative to the retirement eligibility of the chairman of the Louisiana Gaming Control Board.

Purpose of Bill: Proposed law 1) provides the chairman of the Louisiana Gaming Control Board shall be eligible considered a full-time employee of the state and eligible for membership in the Louisiana State Employees' Retirement System (LASERS) and 2) clarifies the annual salary he shall receive, that is equal to that of a judge of the courts of appeal, shall include expenses, benefits, emoluments, and any supplemental pay.

I. ACTUARIAL IMPACT ON RETIREMENT SYSTEMS

This section of the actuarial note is intended to provide a brief outline of the changes in plan provisions and actuarial effect on key aspects of the affected retirement systems.

Proposed law adds the chairman of the Gaming Control Board as a position eligible for participation in LASERS with the same benefits as a judge of the courts of appeal. Given this position has not historically been eligible for participation in LASERS, expected future benefits will necessarily increase. As a result, the actuarial present value of future benefits will also increase.

II. FISCAL IMPACT ON RETIREMENT SYSTEMS

This section of the actuarial note pertains to annual fiscal costs (savings) associated with the retirement systems.

Fiscal costs or savings include only cash flows to or from the affected retirement system (e.g. administrative expenses incurred by, benefit payments from, or contributions to the retirement system) and do not include administrative expenditures and revenues specifically incurred by the state or local government entities associated with implementing the legislation. A fiscal cost is denoted by "Increase" or a positive number. Fiscal savings are denoted by "Decrease" or a negative number. A revenue increase is denoted by "Increase" or a positive number. A revenue decrease is denoted by "Decrease" or a negative number.

Changes in employer contributions are reflected in the State General Fund and/or Local Fund expenditure lines above. The actual sources of funding (e.g., Federal Funds, State General Fund, etc.) may vary by employer and are not differentiated in the table.

The proposed legislation is expected to have the following effects on retirement related fiscal costs and revenues during the five-year measurement period.

1. Expenditures:

Typically, employer contributions (State General Fund expenditures) will increase to reflect the required contribution to LASERS. The amount for FY 2026-27 is 35.35% of pay for those first eligible to participate prior to January 1, 2011, or 33.97% of pay for someone first eligible to participate on or after January 1, 2011. However, the Department of Public Safety is, and has already been, contributing to LASERS. Hence, proposed law will not have a fiscal impact.

2. Revenues:

Changes in expenditures identified as employer contributions have corresponding changes in Agy Self-Generated revenues.

ACTUARIAL NOTE SB 477**

III. FISCAL IMPACT ON LOCAL GOVERNMENT ENTITIES

This section of the actuarial note pertains to annual fiscal costs (savings) related to administrative expenditures and revenue impacts incurred by local government entities other than those included in Section II.

N/A – This bill only impacts state government, and therefore, has no local government impact.

**IV. FISCAL IMPACT ON STATE GOVERNMENT ENTITIES
(Prepared by Legislative Fiscal Office)**

This section of the actuarial note pertains to annual fiscal costs (savings) related to administrative expenditures and revenue impacts incurred by state government entities other than those included in Section II.

Other than the impact on employer contribution rates which is already reflected in Section II above, there is no anticipated direct material effect on governmental expenditures and revenues as a result of this measure.

V. ACTUARIAL DISCLOSURES

Intended Use

This actuarial note is based on our understanding of the bill as of the date shown above. It is intended to be used by the legislature during the current legislative session only and assumes no other legislative changes affecting the funding or benefits of the affected systems, other than those identified, will be adopted. Other readers of this actuarial note are advised to seek professional guidance as to its content and interpretation, and not to rely upon this communication without such guidance. The actuarial note, and any referenced documents, should be read as a whole. Distribution of, or reliance on, only parts of this actuarial note could result in its misuse and may mislead others. The summary of the impact of the bill included in this actuarial note is for the purposes of an actuarial analysis only, as required by La. R.S. 24:521, and is not a legal interpretation of the provisions of the bill.

Actuarial Data, Methods and Assumptions

Unless indicated otherwise, this actuarial note was prepared using actuarial data, methods, and assumptions as disclosed in the most recent actuarial valuation report adopted by the Public Retirement Systems' Actuarial Committee (PRSAC). The assumptions and methods are reasonable for the purpose of this analysis.

Conflict of Interest

There is nothing in the proposed legislation that will compromise the signing actuary's ability to present an unbiased statement of actuarial opinion.

Risks Associated with Measuring Costs

This actuarial note is an actuarial communication and is required to include certain disclosures in compliance with Actuarial Standards of Practice (ASOP) No. 51. Risk disclosures otherwise required by ASOP No. 51 do not apply to this actuarial note because the proposed bill does not significantly change the types or levels of risks of the retirement system.
