**Abstract:** Requires parish tax assessors and collectors to report to the La. Tax Commission (LTC) certain data on ad valorem taxes assessed and collected annually and requires the LTC to include this data in its annual report to the governor and legislature.

Proposed law requires parish tax assessors to report to the LTC, on or before Nov. 15 each year, the total amount of ad valorem property taxes assessed within their respective parishes for the preceding tax year. Requires the assessors to itemize the report by property classification and by property listed in accordance with present law (R.S. 47:1957).

Proposed law requires parish tax collectors to report to the LTC, on or before Nov. 15 each year, the total amount of ad valorem taxes collected for the preceding tax year on all taxable property within their respective parishes.

Present law (R.S. 47:1836) requires the LTC to submit an annual report to the governor and each member of the legislature and provides for the content of the report. Proposed law retains present law and further requires that the report include all of the following:

- (1) The total assessed value of taxable property by parish.
- (2) The total amount of ad valorem taxes assessed by parish.
- (3) The total amount of ad valorem taxes collected by parish.
- (4) A breakdown of the taxes assessed by property classification, including but not limited to residential, commercial, industrial, and public service property.
- (5) Ad valorem tax collection amounts by parish in comparison to the total assessed value of property in the parish, expressed as a percentage.

Proposed law prohibits the use of information broadcast or collected by automatic dependent surveillance-broadcast systems as a means for calculating, generating, and collecting ad valorem taxes.
