NURSING HOMES RE INCREASE GF EX See Note Page 1 of 1
 Provides relative to nursing home licenses. (8/1/26)

Proposed law requires that any nursing facility licensed by the Louisiana Department of Health (LDH) that is selected for participation in the Centers for Medicare and Medicaid Services (CMS) Special Focus Facility (SFF) Program to be subject to enhanced state oversight. Any nursing facility in the SFF Program shall notify current and prospective residents that the facility is in the SFF Program and give them an opportunity to transfer to another facility. The facility is also required to comply with additional state requirements in addition to the CMS requirements. (1) In-person meeting with LDH to discuss state-appointed monitoring and other state requirements. (2) Enter into an agreement with LDH to address the noncompliance of the nursing facility and any of the following requirements: additional in-person unannounced inspections at the expense of the nursing facility; implementing directed plans of correction; holding directed, in-service training; being subject to root-cause analysis to determine the basis for its poor performance; being subject to an owner or license holder analysis to identify a pattern of poor performance; implementing staffing increases as directed by the department to address deficiencies; engaging with a Quality Improvement Organization approved by the CMS; being subject to fines and penalties. LDH shall revoke the license of a facility that fails to meet the requirements of the SFF Program and additional state requirements within eighteen months.

EXPENDITURE EXPLANATION

Proposed law is anticipated to increase SGF expenditures within the Louisiana Department of Health (LDH), Health Standards Section (HSS), by an indeterminable, but minimal amount associated with additional administrative workload related to enhanced state oversight of the nursing homes in the Special Focus Facility Program. LDH indicates that any additional administrative workload can be absorbed within existing resources.

NOTE: LDH reports only one (1) facility is currently participating in the Special Focus Facility Program and another two may be selected. Due to the low number of participating facilities, LDH believes it can generally absorb the enhanced oversight requirements with existing budgetary resources and staff. LFO anticipates that potential expansions of this program in the future may result in a significant workload increase that may require additional budgetary resources, but this scenario is speculative and cannot be anticipated.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
