

performed on manufactured housing are also governed by federal HUD standards under the jurisdiction of commission.

Present law extends the exemption for manufactured housing to related accessory structures, including driveways, steps, decks, and similar work, but excludes additional living areas or other type of heated and cooled spaces outside the original footprint of the manufactured home.

Proposed law retains present law except deletes the reference to services, renovation, repair, or warranty work performed on manufactured housing being under the jurisdiction of the commission and removes the exemption for manufactured housing as it relates to accessory structures.

Proposed law requires municipalities and parishes to inspect the installation and setup of manufactured and modular homes within their jurisdiction.

Proposed law requires inspections to be conducted by a certified building code enforcement officer or certified third-party provider using federal HUD construction standards.

Proposed law requires all disputes regarding interpretation of federal or state construction standards be resolved by the residential subcommittee, whose decision is final and binding.

Proposed law requires the residential subcommittee to offer educational courses on federal HUD construction and installation standards for certification purposes.

Proposed law allows local governments to charge a reasonable inspection fee and permits licensees to hire a certified third-party provider to conduct installation inspections.

Effective January 1, 2027.
