<b>Subject:</b> Construction Management at Risk		

PUBLIC CONTRACT/BIDS EG1 NO IMPACT See Note Page 1 of 1  
 Provides for modifications to the Construction Management at Risk option in Public Bid Law

Present law authorizes public entities to use construction management at risk (CMAR) and requires selection of a construction manager by a review committee based on qualifications, but provides limited procedural requirements regarding committee training, scoring methodology, interview procedures, and public disclosure of evaluation results. Proposed law retains present law but establishes additional procedural requirements for the CMAR selection review committee, including mandatory public training meetings, standardized scoring, score sheets, and ranking procedures, in-person interviews, quorum requirements, expanded public notice and advertising requirements, and public announcement and publication of evaluation scores and recommendations, and prohibits consideration of price prior to selection based on qualifications. Requires submission of a bonding commitment letter, dated within thirty days prior to the proposal due date, evidencing the proposer's ability to obtain a payment and performance bond in an amount equal to the maximum estimated project cost to demonstrate financial stability. Provides that if any provision of proposed legislation conflicts with requirements for grants obtained from federal funds, only the conflicting provision is inapplicable and the remaining provisions remain effective.
