Subject: Weight Management Services for Group Benefits Participants		

HEALTH SERVICES EG SEE FISC NOTE SG EX See Note
Provides relative to comprehensive weight management services. (8/1/26)

Proposed law requires the Office of Group Benefits (OGB) to offer enrollment in a comprehensive weight management plan to plan participants for enrollees and dependents. Proposed law provides for the services to be included in the weight management plan. Proposed law provides that OGB shall notify enrollees of available options for direct purchasing of FDA-approved medications through the pharmaceutical manufacturer. Proposed law provides that any enrollee or dependent in an OGB plan who purchases such medications or participates in an OGB weight management plan shall pay 100% of the associated costs. Proposed law requires OGB to include any weight management plan that it offers in its IRS qualified cafeteria plan.

EXPENDITURE EXPLANATION

There will be indeterminable, likely significant costs to OGB to provide a comprehensive weight management plan pursuant to proposed law. The extent of these costs will depend upon the plan participation rate and the nature of the services included in the plan. All premiums associated with participation in the plan will be paid by enrollees; therefore, there will be no costs to state agencies for employer contributions.

Proposed law requires OGB to notify enrollees of available options for purchasing weight-loss medications directly from the manufacturer; if enrollees pay drug manufacturers directly for weight-loss medications, this may reduce costs incurred by OGB to provide a weight management plan.

OGB reports that the cost of the proposed legislation is currently indeterminable as the structure and requirements of the proposed weight management plan are unclear. LFO will update this fiscal note if additional input from OGB is received.

REVENUE EXPLANATION

Proposed law will result in an indeterminable increase in self-generated revenues to OGB through premiums paid by enrollees participating in the weight management plan. Proposed law requires that enrollees shall pay 100% of premiums associated with the weight management plan. The extent of this increase will depend upon the plan participation rate and the nature of the services included in the plan.
